OF THE

MUNICIPAL GOVERMENT

OF THE CITY OF

NASHUA, N. H.

FOR THE FINANCIAL YEAR 1933

N N 703 1333

ī

59485

Inaugural Address

Delivered by His Honor, Mayor Alvin A. Lucier, January 1, 1934

Gentlemen of the Board of Aldermen:

We have been chosen by the people of this city to conduct its affairs during the ensuing two years. At the outset, let me pay tribute to my predecessor in office, and briefly outline some of the situations that come to us from his administration. His Honor, the Honorable William F. Sullivan, is a man of wisdom, vigor and courage, and he gave untiringly of his time and himself to the conduct of city affairs during the past six years. Some of you men were privileged to have been associated with him, and I feel that you, too, are deserving of compliment for the manner in which you co-operated with him during a period in which we saw a decline from prosperity to the darkest moments of depression and during the period up to now, when we find ourselves on the upward path of progress toward recovery, which I am sure is well on the way. As we take over the reins of government today, we do so with abiding faith that it shall continue its progress. Such is the pledge that we make to the people who have chosen us as their representatives. Although he was against mortgaging our city's future by bond issues. Mr. Sullivan saw a duty to co-operate with President Roosevelt's program started last summer, when the federal government provided over three billion dollars for public works in this country, under an arrangement, as it was then understood, that thirty percent of any money accepted would be an outricht gift. with the possibility that our debt for the balance might some day be excused in whole or in part. Acting upon what he thought was for the best interests of the city, he applied for government money for four projects, which I wish at this time to briefly describe:

1. CAR TRACK REMOVAL AND STREET REPAIRS. This contemplated complete repair of over six miles of streets now occupied by ear tracks, as well as a complete rebuilding of the southwesterly end of Allds Street; this project further provided for covering Commercial Street, at present roughly paved, with a hot top surface which would provide smoother

riding on an important connecting way from Temple to Hollis Street. This type of project seems especially favorable, because of the great number of jobs that could be provided for men unemployed.

- 2. SEWERAGE SYSTEM. If one could get a bird's eye view of our present sewer system, it would look more or less like a crazy quilt. A survey has been made, and the completion of a project based upon this survey would go tar toward giving us a more adequate sewerage system, particularly in the great southwestern section of our city. It is well for us to remember that the center of our population is on Kinsley Street, and our geographical center at the old driving park. This project is also the type of work which would relieve unemployment.
- 3. PARKS AND COMMONS AND RECREATION FA-CILITIES. This project was designed to further develop the Artillery Pond project and includes some building. This would bring nearer to realization a well thought out plan for the development of an area particularly well suited by nature for a recreational center. It also includes work to be done at the South Common and at the swimming pool at Field's Grove.
- 4. NEW HIGH SCHOOL. This project as submitted was designed to permit the erection of a high school building adjacent to our present high school. In addition to relieving congestion of pupils, it would provide work aplenty for carpenters, masons, painters and the other eraftsmen of Naslua who, so far, have not been substantially recognized in the civil works program in New Hampshire.

At the time these projects were discussed and sent to Washington, the method of procedure and the division between a thirty percent grant and a seventy-percent loan seemed fairly simple and clear. Although these projects were submitted to Washington several weeks ago, there seems to be some difficulty in securing complete government approval to a point where the money would be available. Call it red tape, if you will, the fact remains that we know little or nothing about the whys and the wherefores and the status of these particular projects. We do not know when to expect definite action that will even permit us to start work. Meanwhile, we must carry on, watch, and wait. We cannot plan, for we know not what the eventual outcome will be. The introduction of the civil works administration, commonly called the C. W. A., has permitted us to do considerable work at Artillery Pond, the Swimming Pool and to build some small sewers.

Why the C. W. A. was formed and what effect it will have upon the projects outlined above, I am not prepared to state. The time may even come when some of the four projects, in whole or in part, may have to be revised or modified or abandoned altogether. Our course of action can not now be determined, as I will explain later.

Ours is not an easy task, but one in which we shall have to exert all of our strength in order that the city may carry on to greater heights. We must not only continue our battle against depression, but we are faced with a most unusual problem and that has arisen within the past six weeks. No longer can we rely entirely upon past experience as a guide to our conduct in the future, because our country is undergoing economic changes such as have never been experienced in our history. We cannot anticipate that conditions tomorrow will be as they were yesterday. We only know that things are better and improving all the time. We are not dealing in government as we used to know it at a time when we could safely follow the custom laid down by our predecessors, but rather we find ourselves in a different business world and operating under a type of thought entirely new to us. I refer to the many and complicated codes under the N. R. A. to the use of huge sums of federal money under the public works administration, the civil works administration, the welfare agencies and the many other creations of a sympathetic and theoretical government at Washington. Under such conditions, how can we plan for the future development of our city and know that our plans will come to complete realization? Although at the present time a great deal of constructive work is being done through C. W. A. money, there is an air of uncertainty about it all, probably best illustrated by the following instance: We were told, here in Nashua, all of a sudden, that between sixty and seventy thousand dollars was available for civil works projects so that Nashua could employ about three hundred men until February 15th, 1934. Immediately, the heads of departments in Nashua were called in and in a very short time between three and four hundred men were working at various These projects had to be of a nature that did not substantially reduce our normal governmental expen-In other words, we had to be careful not ditures. engage in work which properly belonged eity. This type of work relieved the welfare lists in Nashua and gave employment to many men who had not had the thrill of collecting a week's pay for a considerable numher of months, and, in some cases, years. A short time ago, a representative of the C. W. A. swooped in upon us for a report, and we told him, with considerable pride, that about four hundred men were being regularly employed. Imagine our consternation, when he asked us if we could double that number within forty-eight hours; he told us that word had been received from Washington that more men should be put to work and that more funds were available. We were told that the more men we put to work, the more money we would receive. Such a situation was foreign to the training we had had for years, that of first determining a budget and then living within it. This is a new age and a new day, and rather than depend upon definite plans entirely, we must be ever watchful and on the alert to be ready to promptly co-operate with any existing government agency which will further the progress of our city and even slightly tend to restore confidence and hasten the return of prosperity.

The city of Nashua belongs to the inhabitants. Its govern ment is chosen by the voters and its bills are paid by the tax pavers. We must always remind ourselves that authority to govern comes from the people and that they surrender that right to the representatives of their choice only upon the condition that those representatives will have a watchful eye upon the needs and desires of the citizenry. The opinions of the inhabitants of our city which, taken together, constitute public opinion, should always be followed wherever practicable. In order for our people to form an inteligent opinion upon matters of public interest, they should and must be shown that the conduct of city affairs is a business and one in which they each have an interest. Our city is run by various departments some of which are chosen directly by a vote of the people, and some of which are chosen by the representatives of the people. Many of the departments come under supervision, in whole or in part, of state bureaus with headquarters in Concord, New Hampshire. I am a firm believer in departmental form of government and, in some instances, I welcome the guiding hand of the State of New Hampshire. It is my belief that each department should function primarily as a unit, always having in mind that such department is only one unit that goes to make up the whole. Each department should co-operate with every other one with which it is related. A little thought and study shows that all of our departments are in some way related to each other. I advocate that the departments work in harmony and be of mutual service and help to each other.

This is a cosmopolitan city, made up of many elements and many races. Each group has its customs, beliefs and temperaments. We should recognize them all. I believe it to be healthy for a city to recognize a public opinion which is made up of so many different points of view. We should conduct ourselves during our terms of office so that the very best shall be done for the interests of all of the groups taken together, for they are the people. Let there be no selfishness or prejudice or false pride. Let us all recognize that our duty is to Nashua.

There is one matter upon which I feel some emphasis should be placed. This is the apparent indifference on the part of our people as a whole to the functions of city government, which, of course, means lack of interest. This is due for the most part to lack of knowledge of the city government and the faet that a certain air of mystery surrounds it. The blame for this condition rests, not only upon the people of our city, but upon those chosen as representatives of them. If I were to attempt to draw a diagram of the city and its government, I should make it in the shape of a triangle. In the large area at the bottom, I should place the inhabitants who are the voters and tax payers, and at the very top, the smallest area of all, I would place the city government. It has been the tendency in cities for years to place too much emphasis upon the few at the top and too little emphasis on the many at the bottom. It is my belief that the citizens should be kept constantly informed of the progress of our eity and of the activities of the various departments within it. The people are entitled to know what is going on and so far as I may be able I intend to conduct not only an efficient and economical administration, but one in which frankness will play a considerable part. As mayor of the city, I welcome suggestions from the various groups and sections of our eity in order that I may get a proper picture of public sentiment as a whole on all matters of policy. I say this because it is the only way in which we can keep in touch with the desires of the people. Constructive suggestion shall never be regarded as interference.

Those who elect and those who are elected owe reciprocal duties to each other. It is as much the duty of the people of Nashua to aid and assist those they have chosen as their representatives as it is for the officials to do for the people. It has too long been the custom in city affairs for the voters as a whole to lose interest shortly after an election and not to again become interested until another election is about to take

place. During these two-year periods, the government proceeds along usually in about the same manner from year to year until the people again exercise their civic responsibility and go to the polls either to elect the same men or to replace them with others. There is nothing about city government so complicated that it can not be efficiently explained by the use of simple language understood by all. And it is my hope that during my term of office the people will come to have a broader understanding of the governmental affairs of our city. I should like to see the civic consciousness alive and awake not only at election time, but during the period between, and it is my purpose from time to time to enlighten the citizens of this city upon the various phases of city government and the methods used by the chosen officers in doing the work they have been elected to do.

WELFARE

l am not satisfied that the mere expenditure of money by welfare workers responsible only to central authority at Concord is the solution to our welfare problem, which is a definite burden that must eventually fall upon the tax payers. I have always advocated and still do, that the rehabilitation of our unfortunate people should tend to strengthen their morale as well as feed, clothe and house them. With such a distribution and use of federal money as we have for this and other purposes, there is a considerable tendency toward a shifting, not only of individual and group responsibility to the federal government, but the danger that municipalities will fall in line and gradually shift their burdens to the already stooped shoulders of Uncle Sam. We should not only co-operate through the personnel of our city, but should be willing to assume a fair share of the financial burden in the valient attempt that is being made to rehabilitate this country and return it to the happy path to prosperity.

I believe that there should be investigation into the rates charged for gas, electricity, water and telephone service. This is to determine whether rates charged are fair. If they are, the utilities are to be commended. If they are unfair, then the people should know it and immediate steps be taken to remedy the situation with justice to all.

FINANCES

It is my understanding that all current obligations of the city of Nashua are paid. Sufficient taxes have been collected so that we start this new year with no overdraft and that,

indeed, is a matter to be proud of. We should feel doubly secure with the knowledge that Nashua's financial needs for the year 1934 have been completely underwritten so that we may safely say that all bills can be met promptly and all payrolls paid during this entire year. It is indeed a tribute to Nashua and to the management of it, and shows the confidence which must be felt in the courage of the people within it that it was possible to secure this assurance of financial independence during these trying times. Although it is our duty to keep a sympathetic and watchful eye upon the needs of our city and its citizens, it is very necessary that we operate upon an economical basis, consistent with the proper security of our city's standing.

We of the city government have much to be thankful for. Nashua is the finest city in the land and we are proud of it. Our banking institutions are sound. Our industries, from the largest to the smallest, have bravely battled against the forces of depression and have weathered the storm. Our merchants and tradesmen and our business men in general have patiently endured unheard of business hardships. Our people, trained in the conservative school of New England traditions, are brave and strong and can always be counted upon to face any emergency that may arise with courage and a smile.

What more can we ask Gentlemen of the Board of Aldermen? Let us be wise, alert, sympathetic and harmonious, and if each of us does his full duty, Nashua then will keep on going forward and this surely will be a real happy new year, which I now wish you all.

City Government of The City of Nashua, New Hampshire For the Years 1932-1933

Resolutions and Ordinances

RESOLUTION

ADOPTING RULES AND FIXING THE TIME FOR HOLD-ING REGULAR MEETINGS

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-Three

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the rules of the Board of Aldermen for 1932 be and the same are hereby adopted for 1933, and that the time for holding regular meetings be on the second and fourth Tuesday of each month at (8) eight o'clock in the afternoon.

Passed January 2, 1933.

Approved January 2, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

AUTHORIZING THE FINANCE COMMITTEE TO BORROW MONEY IN ANTICIPATION OF TAXES

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-Three

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Finance Committee be and they hereby are authorized and directed to borrow from time to time during the current municipal year beginning January 1, 1933, a sum or

sums not exceeding one million (1,000,000) dollars for the purpose of meeting the current expenses of the city and the Mayor and Treasurer are hereby authorized to execute and issue the negotiable note or notes of the City of Nashua therefor.

Every such note shall become due and payable within one (1) year from the date of the loan for which it is issued is incurred; provided, however, that said Finance Committee be and they hereby are authorized to refund by the issue of new notes any of the notes issued as aforesaid such new notes to be executed in like manner and be payable within one (1) year after the date of incurrence of the original loan or loans which they are to refund. Such original notes and notes in renewal thereof shall not be payable on demand and shall not be valid unless authenticated by the certificate of the First National Bank of Boston, Massachusetts.

All debts incurred under authority of this vote shall be paid from the taxes of said current municipal year.

Passed January 2, 1933.

Approved January 2, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

RELATIVE TO THE PRE-PAYMENT OF TAXES FOR THE YEAR 1933

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-Three

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Tax Collector of the City of Nashua, in accordance with and by authority of Chapter 66, Section 43, of the Public Laws of New Hampshire, be and hereby is empowered to allow a discount on 1933 taxes for pre-payment of said taxes, such discount to be at the rate of four per centum per

annum from date of payment to December 1, 1933, but no discount shall be allowed for pre-payment after November 1, 1933.

Pre-payments may be made before, as well as after, the assessment of taxes for the year of 1933, discounts to apply on partial or total pre-payments.

In the event the amount pre-paid by a taxpayer exceeds the 1933 assessment when made, said taxpayer shall receive a rebate of the amount overpaid on said tax.

Further, in the event that the tax assessment for 1933 is more in amount than the pre-payment made, said taxpayer shall be charged the additional amount due.

Passed January 2, 1933.

Approved January 2, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR TO EXECUTE A DEED TRANSFERRING LAND ON BOWERS STREET TO HECTOR GIRARD

CITY OF NASHUA

RESOLUTION

IN RELATION TO THE COLLECTION OF POLL TAXES CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-Three

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Collector of Taxes be and hereby is authorized to forward during the month of July 1933, a notice to each and every poll tax payer of the City of Nashua, notifying each poll tax payer that the poll tax for 1933 must be paid on or before August 1, 1933, and for all poll taxes not paid by said date to charge costs amounting to twenty (20) cents for said notice, the said notice to consist of the publication of this resolution in the newspapers of this city in three separate issues during the month of July, and resolved further that the Collector of taxes be and hereby is authorized to proceed to distrain for all poll taxes not paid by the first day of August 1933.

Approved June 16, 1933. Passed June 13, 1933.

Attest: ARTHUR L. CYR, City Clerk.

RESOLUTION

MAKING A SUPPLEMENTARY APPROPRIATION FOR THE WARD AND ELECTION DEPARTMENT

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-Three

RESOLVED, By the Board of Aldermen of the City of Nashua:

That in accordance with the recommendation of the Mayor a supplementary Appropriation of Fifteen Hundred (\$1,500.00) Dollars is hereby made for the Ward and Election Department. This amount to be used to defray the expense of the Special Election held June 20 and to be taken from the taxes of 1933.

Passed July 11, 1933.

Approved July 11, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR TO EXECUTE A DEED OF LOT NUMBER 241 ON LINWOOD STREET

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-Three

RESOLVED, By the Board of Aldermen of the City of Nashua:

That, His Honor, William F. Sullivan, Mayor of said City of Nashua, be, and hereby is, authorized and empowered to execute a deed from said City of Nashua to George F. Caldwell Estate, the purpose of said conveyance being to correct an error on the records of the Registry of Deeds for Hillsborough County, the original deed from said City of Nashua, executed by Harry W. Ramsdell, Collector of Taxes for said City of Nashua for the year 1898, to George F. Caldwell, under date of November 23, 1901, and recorded at said Hillsborough County Registry of Deeds under date of November 26, 1901, in Volume 605, Page 470, describes the lot conveyed as being number 242, which is a typographical error and should read as being lot number 241, on Linwood Street, in said Nashua. Passed August 8, 1933.

Approved August 9, 1933.

Attest:

RESOLUTION

AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO SELL THE O'DONNELL SCHOOL PROPERTY ON CHANDLER STREET AND AUTHORIZING THE MAYOR TO EXECUTE A DEED OF SAME.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-Three

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Committee on Lands and Buildings, of said City of Nashua, be authorized and empowered to sell by public auction the O'Donnell School property, situated on Chandler Street, in said Nashua, and that they be authorized to incur such expense as is necessary and incidental to said sale.

And, further, that His Honor, William F. Sullivan, Mayor of said City of Nashua, be authorized and empowered to execute a deed conveying said property to the purchaser.

Passed August 8, 1933.

Approved August 9, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR AND FINANCE COMMITTEE TO MAKE APPLICATION FOR A LOAN AND GRANT UNDER THE PROVISIONS OF THE NATIONAL INDUSTRIAL RECOVERY ACT.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three.

RESOLVED, By the Board of Aldermen of the City of Nashua:

That His Honor, William F. Sullivan, Mayor of the City of Nashua, and the Finance Committee of said City of Nashua, be authorized and empowered, on behalf of the said City of Nashua, to make application to the Federal Government, under the provisions of the National Industrial Recovery Act for a loan and grant not to exceed the sum of one (1) million

dollars, to be used for contemplated construction projects in said City of Nashua, said sum of one (1) million dollars to be allocated approximately as follows:

\$173,000 for removal of street railway tracks and street

pavement work.

\$188,000 for enlargement and development of present

sewerage system.

\$139,000 for increasing recreation facilities, including parks, swimming pools, commons and playgrounds.

\$500,000 for schools.

Further, that said Mayor Sullivan and said Finance Committee be authorized and empowered to negotiate with and borrow from the said Federal Government such amounts as provided and required for the carrying out of the above enumerated projects as the respective applications therefor are hereinafter granted by the said Federal Government.

Further, that said Mayor Sullivau and the City Treasurer of the City of Nashua be authorized and empowered to issue bonds of the City of Nashua in such amounts as provided for

in said respective applications.

Further, that said Mayor Sullivan and said Finance Committee be authorized and empowered to incur such administrative and necessary expense incidental to the correct and required execution and filing of said application, and negotiations.

Passed September 12, 1933. Approved September 13, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

AUTHORIZING THE COMMITTEE ON LANDS AND BUILDINGS TO SELL AT PRIVATE SALE THE O'DONNELL SCHOOL PROPERTY ON CHANDLER STREET AND AUTHORIZING THE MAYOR TO EXECUTE A DEED OF THE SAME.

CITY OF NASHUA

In the Year of our Lord One Thousand Nine Hundred and Thirty-three.

RESOLVED, By the Board of Aldermen of the City of

Nashua:

That the Committee on Lands and Buildings, of said City of Nashua, be authorized and empowered to sell at private

sale to George Perkins, 105 First Street, Melrose, Massachustts, the O'Donnell School property, situated on Chandler Street, in said Nashua, and that they be authorized to incur such expense as is necessary and incidental to said sale.

And, further, that His Honor, William F. Sullivan, Mayor of said City of Nashua, be authorized and empowered to execute a deed conveying said property to said George Perkins.

Passed September 12, 1933.

Approved September 13, 1933.

Attest:

ARTHUR L. CYR. City Clerk.

RESOLUTION

FOR THE SALE OF LAND ON HOLLIS ROAD

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three.

RESOLVED, By the Board of Aldermen of the City of Nashua:

That the Tax Collector for the City of Nashua be and hereby is empowered to sell to Ella J. and James W. Mortlock for the consideration of \$134.50, Land and Buildings, Hollis Road, Lots 46 and 48 Sheet D.

Meaning and intending the lots sold for non-payment of the taxes of the year 1928 on June 29, 1929, said lots at the time of Tax Sale being assessed to Arthur A. Wheeler.

The City of Nashua also bought the above property in at Tax Sales of 1929, 1930, 1931, and 1932 taxes and also paid the tax for 1933.

The above lots were deeded to the City of Nashua by a Tax Collector's Deed on October 10, 1933.

Passed October 24, 1933.

Approved October 25, 1933.

Attest:

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three.

AN ORDINANCE

AMENDING CHAPTER 31, SECTION 17 OF THE CITY ORDINANCES.

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

That Chapter 31, Section 17, of the City Ordinances be amended by adding the following at the end of said section:

Temple Street from the intersection of Court Street Easterly to the intersection of East Pearl Street.

Passed November 14, 1933.

Approved November 15, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

GRANTING A PENSION TO CHARLOTTE A. CUSHING. CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three.

Resolved, By the Board of Aldermen of the City of Nashua:

Pursuant to the Provisions of Chapter 226 of the Session Laws of 1923 and Chapter 307 of the Session Laws of 1925, a pension in the annual amount of \$762.50 is hereby granted Charlotte A. Cushing, a school teacher now incapacitated for further service.

This pension to be paid from the School Department appropriation in ten monthly installments subject to a ten per cent, reduction until otherwise ordered.

Passed November 14, 1933.

Approved November 15, 1933.

Attest:

RESOLUTION

APPROVING, AUTHORIZING AND DIRECTING THE EXECUTION AND DELIVERY OF A CONTRACT BETWEEN THE CITY OF NASHUA AND THE UNITED STATES OF AMERICA, CALLED A LOAN AGREEMENT

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three.

RESOLVED, By the Board of Aldermen of the City of Nashua:

That, Whereas, the application of the City of Nashua for a loan and grant to aid in financing the construction of certain street improvements has been approved by the Federal Emergency Administrator of Public Works, in an amount not to exceed one hundred seventy-three thousand dollars (\$173,000): and

Whereas, a contract between the City of Nashua and the United States of America, called a "Loan Agreement," is now ready for execution, a complete and accurate copy of which Loan Agreement is as follows:

LOAN AGREEMENT dated as of November 14, 1933, between the CITY OF NASHUA, HILLSBOROUGH COUNTY, NEW HAMPSHIRE. (herein called the "Borrower"), and the UNITED STATES OF AMERICA (herein called the "Government").

PART ONE

GENERAL PROVISIONS

1. AMOUNT, PURCHASE PRICE AND PURPOSE. Subject to the terms and conditions set forth below, the Borrower will sell and the Government will purchase not to exceed \$173,000 aggregate principal amount of the bonds (herein called the "Bonds") of the Borrower, at 100 percent of the principal amount thereof plus accrued interest, the proceeds derived from the sale of the Bonds to be used for the construction by the Borrower of certain street improvements (herein called the "Project" and more fully described in Docket No. 1174). '~ be owned and controlled by the Borrower, and for incidental purposes, all pursuant to Title II. of the National Industrial Recovery Act, approved June 16, 1933.

(herein called the "Act"), and the Constitution and Statues of the State of New Hampshire, and the Charter of the Borrower, including among others:

Chapter 59, Public Laws, New Hampshire, 1926.

2. DESCRIPTION OF BONDS.

- (a) DESIGNATION: Public Improvement Bond.
- (b) AUTHORIZED PRINCIPAL AMOUNT. \$173,-000.
- (e) TYPE: Negotiable general obligation coupon bonds.
- (d) REGISTERABLE: At the option of the holder as to principal and interest.
- (e) DATE: November 1, 1933.
- (f) INTEREST: 4 percent per annum, payable May 1, 1934, and semi-annually thereafter on the first days of May and November in each year.
- (g) MATURITIES: Bonds shall mature on November 1 in each year in accordance with the following schedule:

Year	Amount	Year	Amount
1934	\$9,000	1941	\$9,000
1935	9,000	1945	9,000
1936	9,000	1946	9,300
1937	9,000	1947	9,300
1938	9,000	1948	9,000
1939	9,000	1949	9,000
1940	9,000	1950	9.000
1941	9,000	1951	9,000
1942	. 000,6	1952	9.000
1943	9,000	1953	2,000

- (h) SECURITY: General obligations of the Borrower payable as to both principal and interest from ad valorem taxes which may be levied without limit as to rate or amount on all the taxable property within the territorial limits of the Borrower.
- (i) PLACE AND MEDIUM OF PAYMENT: In the City of Nashua, New Hampshire, in such funds as are, on the respective dates of payment of the principal of and interest on the Bonds, legal tender for debts due the United States of America.
- (i) DENOMINATION: \$1,000.

- 3. FORM, TEXT AND SAMPLE OF BOND. The Bonds shall be in form and text satisfactory to the Government. Before the Bonds are prepared the Borrower shall submit a sample or specimen bond (with coupons) for approval by the Government.
- 4. METHOD OF PURCHASE OF BONDS. The Bonds shall be purchased in blocks from time to time as funds are needed for the Project, or the entire issue may be purchased by the Government at one time, in the discretion of the Government.
- 5. AMOUNT OF BONDS TO BE PURCHASED. The Government shall be under no obligation to purchase Bonds beyond the amount necessary in the judgment of the Government, to complete the Project. In case any of the Bonds are sold to purchasers other than the Government, the principal amount of Bonds which the Government is obliged to purchase shall be correspondingly reduced.
- 6. DEPOSIT OF PROCEEDS AND SINKING FUND. The Borrower will pay all accrued interest which is received from the sale of the Bonds at the time of the purchase thereof into the bond and interest sinking fund account hereinafter described. It will deposit the remaining proceeds from the sale of the Bonds in a bank or banks which are members of the Federal Reserve System, in a special account or accounts, each of such special accounts to be continuously secured by a pledge to the Borrower of direct obligations of the United States of America having an aggregate market value, exclusive of accrued interest, at all times at least equal to the balance on deposit in each such account. Such securities will either be deposited with the Borrower or be held by a trustee or agent satisfactory to the Government, provided the trust or agency agreement is satisfactory to the Govern-Any balance or balances remaining unexpended in such special account or accounts after the completion of the Project and not required to meet unpaid obligations incurred in connection with the construction thereof shall be paid into said bond and interest sinking fund account, and, together with the accrued interest aforesaid, shall be used solely for the payment of the interest on and principal of the Bonds, or said unexpended balance or balances may be used for thepurchase of such of the Bonds as are then outstanding at a price (exclusive of accrued interest) not exceeding the principal amount thereof, and said accrued interest or unexpended balance or balances are hereby pledged to such uses. Any Bonds so purchased shall be cancelled and no additional

Bonds shall be issued in lieu thereof. Such Bonds, when cancelled, shall be submitted to the Government for recording.

- 7. DISBURSEMENT OF PROCEEDS. The Borrower will expend the funds in such special account or accounts only for such purposes as shall have been previously specified in certificates accompanying the requisition to the Government and approved by the Government.
- 8. THE GRANT. If, at the time of the completion of the Project, the Government shall find.
 - (a) That the Borrower has constructed the Project in an efficient economical manner and in accordance with all the terms and conditions of this Agreement; and
 - (b) That the financial and other affairs of the Borrower are being conducted efficiently and econormally and that its budget has been balanced.
 - (c) That action is in process or in good faith assured therein, reasonably designed to bring the ordinary current expenditures of the Borrower within the prudently estimated revenues of the Borrower,

then the Government will make a Grant to the Borrower of an amount not exceeding 30 percent of the cost of the labor and materials employed upon the Project, and not exceeding, in any event, \$43,500, the cost of such labor and materials to be determined by the Government engineers. Such Grant shall be supplied as follows:

- (1) If any of the Bonds are then held by the Government (or by or for any department, agency or instrumentality thereof) the Government (or such department, agency, or instrumentality thereof) agrees to cancel insofar as possible Bonds in an aggregate principal amount equal to the amount of the Grant, commencing with the last maturity, in the inverse order of maturities, or in such other order as shall be satisfactory to the Government.
- (2) In case none of the Bonds shall be so held at such time, or if such Bonds as are so held shall have been cancelled as above provided, then such Grant, or any balance thereof, shall be paid to the Borrower, provided that the Borrower shall first furnish assurances in form satisfactory to the Government that it will deposit such Grant in a special account or accounts, each such deposit to be made and secured in a manner satisfactory to the Government and will apply such Grant solely to the payment of the principal of and interest on the

Bonds as they mature or to the purchase of outstanding Bonds at a price not exceeding the principal amount thereof and accrued interest.

PART TWO

PROCEDURE

- 1. APPROVAL OF AGREEMENT. Prior to the execution of this Agreement, the Dorrower will have adopted a resolution setting forth this Agreement in full, approving the same, and authorizing and directing the execution and delivery thereof by the officials designated to sign the same on its behalf. The Borrower will promptly send to the Government complete extracts from the minutes of the meetings of Borrower's governing body showing all proceedings taken incident to such authorization, including a copy of said resolution, all duly certified, (together with proof of sufficient publication of such resolution, if publication thereof is required by law) and three signed copies of the Agreement.
- 2. PRELIMINARY PROCEEDINGS BY BORROWER. Promptly after the execution of this Agreement the Borrower will:
 - (a) Submit to the Government a certified transcript of all bond proceedings to date, if any, and a draft of the proposed proceedings (including the form of bond) authorizing the issuance of all of the Bonds, and providing for their payment and sale, all approved by Borrower's City Solicitor;
 - (b) Submit to the Government plans, drawings, and specifications of the work and materials called for by the proposed contracts; the latest data as to the expected cost of the Project; as to when and how it is proposed to advertise for bids and to let contracts for the work; as to when and how it is proposed to acquire the necessary lands, easements, franchises, and rights-of-way; an estimate as to the amount of money that will be needed at the time of the purchase of the Bonds; and any other detail or data that may be requested by the Government's engineers.

- (c) Procure and submit to the Government such Federal, State or local permits, licenses or authorizations as may be required by law, and such as the Government may deem advisable then to be obtained in connection with the Project or the Bonds.
- 3. REQUISITION FOR FIRST PURCHASE. When the provision of Paragraph 2, PART TWO, hereof, shall have been complied with to the satisfaction of the Government, the Borrower will then take the necessary proceedings to authorize the Bonds, and may at any time thereafter nle with the Government a requisition requesting the Government to purchase such amount of the Bonds as will provide sufficient funds for the construction of the Project for a reasonable period (or, in the discretion of the Government, a requisition to purchase the entire issue thereof at one time), specifying the principal amount, serial numbers and maturities (which maturities shall be satisfactory to the Government) of the bonds of such block and the date when it is desired to complete the sale thereof which date shall be not earlier than 10 days after the Government's receipt of such requisition, unless the Government shall waive such time limit), such requisition to be accompanied by:

A certificate by a duly qualified officer of the Borrover in such detail as the Government's engineers may request showing the purposes for which the Borrower proposes to expend the proceeds of the sale of the current block of

Bonds:

(b) A certified transcript of all bond proceedings to ken to date (other than proceedings of which a certified transcript has already been delivered to the Government) including the form of the Bond:

(e) A signed and dated no-litigation certificate signed by Borrower's City Solicitor covering

all of the Bonds;

(d) Two specimen bonds with coupons attached;

(e) Two signed and dated copies of a preliminary opinion of Borrower's City Solicitor, covering all of the Bonds, and to the effect that the Bonds, when executed, sold, delivered and paid for, will be valid and binding general obligations of the Borrower in accordance with the terms thereof, payable and secured as stated in Paragraph 2 (h), PART ONE, hereof.

- (f) Two unsigned and undated drafts of a final opinion of Borrower's City Solicitor, to the effect that the Bonds of the current block are valid and binding general obligations of the Borrower in accordance with the terms thereof, payable and secured as stated in Paragraph 2 (h), PART ONE, hereof;
- (g) Two unsigned and undated drafts of a certificate by the Borrower, showing the changes, if any, in the financial condition of the Borrower, other than such changes as are necessary and incidental to the ordinary and usual conduct of the Borrower's affairs, since the date of the most recent financial statement or certificate previously submitted to the Government (specifically describing such statement or certificate), and declaring whether or not the financial condition of the Borrower is as favorable as at the date of said most recent financial statement or certificate:
- (h) Two unsigned and undated drafts of a signature and no-litigation certificate covering the Bonds of the current block and relating to the execution thereof;
- (i) Two unsigned and undated drafts of a delivery and payment certificate covering the Bonds of the current block:
- (j) A letter from a bank which is a member of the Federal Reserve System to the effect that such bank will accept deposit of the proceeds derived from the sale of the Bonds and secure such deposit as hereinafter provided:
- (k) A statement that, on or before the date the Bonds of the current block are purchased, or subsequently as shall be satisfactory to the Government, the Borrower will enter into contracts for the construction of the Project, or the major portions thereof, at prices which will insure completion of the work within the estimated cost previously submitted to the Government's engineers, and that the Borrower will furnish the Government with satisfactory assurances as to the ability of such contractors to meet their obligations in accordance with the terms thereof.

All of the documents described in this Paragraph shall be satisfactory in form and substance to the Government.

- 4. FIRST PURCHASE. If such requisition and the documents accompanying same are satisfactory to the Government, upon reasonable notice to the Borrower, and subject to the terms and conditions of this Agreement, the Government will arrange to submit an offer to purchase the Bonds included in such block and, thereafter, in the event that such Bonds are awarded to it, to take up and pay for such Bonds at the Federal Reserve Bank of Boston, Boston, Massachusetts, or such other place, or places as the Government may designate, against delivery by the Borrower of such Bonds (having all unmatured coupons attached) and the following documents in the form theretofore approved by the Government
 - (a) Two signed and dated counterparts of each of the documents described in Sub-Paragraphs (f), .(g), (h) and (i) of Paragraph 3, PART TWO, hereof:

such documents to be dated as of the date of delivery of and

payment for the Bonds of such block.

5. SUBSEQUENT REQUISITIONS. Unless all of the Bonds shall have been previously sold, from time to time after such first purchase, but not oftener than once a month (unless otherwise satisfactory to the Government), the Borrower will file requisitions with the Government requesting the Government to purchase such additional blocks of the Bonds as in each case will provide funds for the construction of the Project for a reasonable period, specifying the principal amount, serial numbers and maturities (which maturities shall be the earliest maturities of any Bonds then remaining unsold or such maturities as shall be satisfactory to the Government) of the Bonds included in such block and the date when it is desired to complete the sale thereof (which date shall be not earlier than 10 days after the Government's receipt of the requisition, unless the Government shall waive such time limit), each such requisition to be accompanied by:

(a) A certificate of a duly authorized officer of the Borrower, showing in such detail as the Government's engineers may request, the purposes for which the Borrower proposes to expend the proceeds of such block of Bonds and accounting for the expenditures made from the proceeds of all blocks of Bonds theretofore sold, insofar as such expenditures have not previous-

ly been so accounted for;

(b) A statement by each bank in which the proceeds of any Bonds previously sold have been deposited, showing the balance then remaining in such account, the collateral security therefor, and how such collateral is held, provided that no such statement need be submitted by any bank in which no such balance remains on deposit and which has previously so certified;

(c) A signed and dated no-litigation certificate of Borrower's City Solicitor, in form previously approved by the Government, covering all of the

Bonds: and

(d) Documents corresponding to those described in Sub-Paragraphs (f), (g), (h), (i) and (j) of Paragraph 3, PART TWO, hereof.

All of the documents described in this Paragraph shall be satisfactory in form and substance to the Government.

- 6. SUBSEQUENT PURCHASES. If such requisition and the documents accompanying same are satisfactory to the Government, upon reasonable notice to the Borrower, and subject to the terms and conditions of this Agreement, the Government will arrange to submit an offer to purchase the Bonds included in such block and, thereafter, in the event that such Bonds are awarded to it, to take up and pay for such Bonds, at the Federal Reserve Bank of Boston, Boston, Massachusetts or such other place, or places, as the Government may designate, against delivery of such block of Bonds, (having all unmatured coupons attached) and the following documents in the form theretofore approved by the Government:
 - (a) Two signed and dated counterparts of each of the documents described in Sub-Paragraphs (f), (g), (h) and (i) of Paragraph 3, PART TWO, hereof, covering the Bonds of the current block and dated as of the date of delivery of and payment for such block of Bonds.

PART THREE

CONSTRUCTION CONTRACTS

1. CONSTRUCTION CONTRACTS. All construction contracts made by the Borrower and all subcontracts for work on the Project shall be subject to the rules and regulations adopted by the Government to carry out the purposes and control the administration of the Act, and shall contain provisions appropriate to insure that:

- (a) CONVICT LABOR. No convict labor shall be employed on the Project, and no materials manufactured or produced by convict labor shall be used on the Project.
- (b) 30-HOUR WEEK. Except in executive, administrative and supervisory positions, so far as practicable and feasible in the judgment of the Government, no individual directly employed on the Project shall be permitted to work more than thirty hours in any one week, or except in cases of emergency, on any Sundays or legal holidays; but in accordance with rules and regulations from time to time made by the Government, this provision shall be construed to permit working time lost because of inclement weather or unavoidable delays in any one week to be made up in the succeeding twenty days.

(c) WAGES.

- (1) All employees shall be paid just and reasonable wages which shall be compensation sufficient to provide, for the hours of labor as limited, a standard of living in decency and comfort;
- (2) All contracts and subcontracts shall further prescribe such minimum wage rates for skilled and unskilled labor as may be determined by the Government and shall be subject to all rules and regulations which the Government may promulgate in connection therewith. Such minimum rates, if any, shall also be stated in all proposals of bids submitted including those of subcontractors; and a clearly legible statement of all wage rates to be paid the several classes of labor employed on the work shall be posted in a prominent and easily accessible place at the site of the work. All contractors shall keep a true and accurate record of the hours worked by and the wages paid to each employee and shall furnish the Government with sworn statements thereof on demand.
- (3) All employees shall be paid in full not less often than once each week and in lawful money of the United States of America in the full amount accrued to each individual at the

time of closing of the payroll, which shall be at the latest date practicable prior to the date of payment, and there shall be no deductions on account of goods purchased, rent, or other opligations, but such obligations shall be subject to collection only by legal process.

(d) LABOR-PREFERENCES. Preference shall be given, where they are qualified, to ex-service men with dependents, and then in the following

order:

(1) To citizens of the United States and aliens who have declared their intention of becoming citizens, who are bona fide residents of the City of Nashua, and—or Hillsborough County, in the State of New Hampshire, and,

(2) To citizens of the United States and aliens who have declared their intention of becoming citizens, who are bona fide residents of the State of New Hampshire; provided, that these preferences shall apply only where such labor is available and qualified to perform the work to-

which the employment relates.

EMPLOYMENT SERVICES. To the fullest ex-(e) tent possible, labor required for the Project and appropriate to be secured through employment services, shall be chosen from lists of qualified workers submitted by local employment, agencies designated by the United States Employment Service, provided, however, that organized labor, skilled and unskilled, shall not be required to register at such local employment agencies but shall be secured in the customary ways through recognized union locals. In the event, however, that qualified workers are not furnished by the union locals within 48 hours (Sunday and holidays excluded) after request is filed by the employer, such labor may be chosen from lists of qualified workers submitted by local employment agencies designated by the United States Employment Service. In the selection of workers from lists prepared by such employment agencies and union locals, the labor preferences provided in Sub-Paragraph (d) supra, shall be observed in accordance with such rules and regulations as the Government may prescribe.

- (f) HUMAN LABOR. In accordance with such rules and regulations as the Government may prescribe, the maximum of human labor shall be used in lieu of machinery wherever practicable and consistent with sound economy and public advantage; and to the extent that the work may be accomplished at no greater expense by human labor than by the use of machinery, and labor of requisite qualifications is available, such human labor shall be employed.
- (g) ACCIDENT PREVENTION. Every construction contract for work on the Project shall contain an undertaking to comply with all applicable provisions of the laws and building and construction codes of the State, Territory, District and—or municipality in which the work is done and with any regulations for the protection of workers which may be promulgated by the Government.
- (h) COMPENSATION INSURANCE. Every construction contract for work on the Project shall contain a provision requiring the employer to furnish compensation insurance for injured workers and to give proof of such adequate insurance satisfactory to the Government.
- (i) PERSONS ENTITLED TO BENEFITS OF LABOR PROVISIONS. Every person who performs the work of a laborer or a mechanic on the Project, or any part thereof, shall be entitled to the benefits of the labor and wage provisions hereof regardless of any contractual relationship between the contractor or subcontractor and such laborer or mechanic.
- (j) BONDING OF CONTRACTS. Construction contracts shall be supported by adequate surety or other bonds or security satisfactory to the Government for the protection of labor and material men employed on the Project or any part thereof.
- (k) MATERIALS. So far as articles, materials and supplies produced in the United States are concerned, only articles, materials and supplies produced under codes of fair competition adopted pursuant to the provisions of Title I

of the Aet, or under the President's Reemployment Agreement, shall be used in work on the Project, except when the Government determines that this requirement is not in the public interest or that the consequent cost is unreasonable. So far as feasible and practicable, and subject to the above, preference shall be given to the use of locally produced materials if such use does not involve higher cost, inferior quality or insufficient quantity, subject to the determination of the Government; but there shall be no requirement providing prices differentiations for or restricting the use of materials to those produced with the Nation or State.

- (1) INSPECTION AND RECORDS. The Government, through its authorized agents, shall have the right to inspect all work as it progresses and shall have access to all pay rolls, records of personnel, invoices of materials, and other data relevant to the performance of the contract.
- REPORTS. Subject to such rules and regula- (\mathbf{m}) tions as the Government may prescribe, contractors and sub-contractors shall make reports in triplicate to the Government monthly within five days after the close of each calendar month on forms to be furnished by the United States Department of Labor, which reports shall include the number of persons on their pay rolls, the aggregate amount of the pay rolls, the man hours worked, wage scales paid to various classes of labor and the total expenditures for materials. The contractors shall also furnish to the Government the names and addresses of all sub-contractors at the earliest dates practicable.
- (n) COMPLIANCE WITH TITLE I OF THE ACT.
 All contractors and sub-contractors must comply with the conditions prescribed in Section 7
 - (a) (1) and 7 (a) (2) of Title I of the Act.
 - 2. RESTRICTION AS TO CONTRACTORS. No contract shall be let to any contractor or subcontractor who has not signed and complied with the applicable approved code of fair com-

petition adopted under Title 1 of the Act for the trade or industry or subdivision thereof concerned, or, it there be no such approved code, who has not signed and complied with the provisions of the President's Reemployment Agreement.

3. TERMINATION FOR BREACH. Borrower will enforce compliance with all the provisions of this part of this Agreement, and, as to any work done by it in connection with the construction of the Project, will itself comply therewith. All constructions contracts shall provide that if any such provisions are violated by any contractor or subcontractor, the Borrower may, with the approval of the Government, and shall at the request of the Government, terminate by written notice the contractor or subcontractor the contract of such contractor or subcontractor, and have the right to take over the work and prosecute the same to completion by contract or otherwise and such contractor or subcontractor and his sureties shall be liable for any excess cost occasioned thereby and—or, if so requested by the Government, the Borrower shall withhold from such contractor or subcontractor so much of the compensation due to him as may be necessary to pay to laborers or mechanics the difference between the rate of wages required by the contract and the rate of wages actually paid to the laborers and mechanics.

PART FOUR

MISCELLANEOUS PROVISIONS

1. CONSTRUCTION OF PROJECT. After the purchase of the first block of Bonds, the Borrower will promptly commence or cause to be commenced the construction of the Project and will thereafter continue the same with all practicable dispatch, in an efficient and economical manner, at a reasonable cost, and in accordance with plans, drawings, specifications and construction contracts which except for subcontracts, shall be in form satisfactory to the Government, and in accordance with such engineerig supervision and inspection as the Government, or its representatives, may re-

quire. Except with the prior written consent of the Government, no materials or equipment for the Project shall be purchased by the Borrower subject to any chattel mortgage or any conditional sale or title retention agreement.

- 2. COMPLETION OF PROJECT. The Borrower will complete the Project within six months after the purchase of the first block of Bonds hereunder. Upon such completion the Borrower will furnish to the Government a certificate by the Borrower's engineers as to such completion and as to the total cost of the Project, accompanied by such additional data as the Government's engineers may request.
- 3. ACCOUNTS. The Borrower will keep proper books of records and accounts (separate from all other records and accounts) in which complete and correct entries shall be made of all transactions relating to the Project.
- 4. INSPECTION. The holders of the Bonds shall have the right at all reasonable times to inspect the Project, and all records, accounts and data of the Borrower relating thereto.
- 5. INFORMATION. During the construction of the Project the Borrower will furnish to the Government all such information and data as the Government's engineers may request as to the construction, cost and progress of the work. The Borrower will furnish to the Government and to any holder of 25 per centum in aggregate principal amount of the Bonds, such financial statements and other information and data relating to the Borrower and the Project as the Government or any such holder from time to time may reasonably request.
- 6. CONDITIONS PRECEDENT TO THE GOVERN-MENT'S OBLIGATIONS. The Government shall be under no obligation to purchase any of the Bonds or make any payments on account of the Grant:
 - (a) COST OF PROJECT: If the Government shall not be satisfied that the Borrower will be able to construct the Project within the cost estimated at the time when the loan was approved by it, such estimated cost being the amount of \$173,000, unless, in the event that additional funds appear to the Government to be necessary in order to pay in full the cost of the construction of the Project, the Government shall be satisfied that the Borrower will be able to

- obtain such funds, as needed, through additional borrowing or otherwise;
- (b) COMPLIANCE: If the Borrower shall not have complied, to the satisfaction of the Government, with all agreements and conditions contained or referred to in this Agreement theretofore to be complied with by the Borrower and in the resolution authorizing the issuance of the Bonds;
- (c) LEGAL MATTERS: If the Government shall not be satisfied as to all legal matters and proceedings affecting the Bonds, the security therefor or the Project:
- (d) REPRESENTATIONS: If any representations made by the Borrower in this Agreement or in the loan application or any other data submitted by the Borrower shall be found by the Government to be incorrect or incomplete many material request.
- (e) FINANCIAL CONDITION: If, in the judgment of the Government, the financial condition of the Borrower shall have changed unfavorably in a material degree from its condition as therefore represented to the Government.

No waiver by the Government, express or implied, of any such condition shall constitute a waiver thereof as applied to any subsequent obligation of the Government under this Agreement.

- 7. REPRESENTATIONS AND WARRANTIES. The Borrower represents and warrants as follows:
 - (a) AUTHORIZATION: All necessary authorizations, permits, licenses and approvals from Federal, State, county, municipal and other authorities have been obtained for the construction and operation of the Project.
 - (b) LITIGATION: No litigation or other proceedings are now pending or threatened which might adversely affect the Bonds, the construction and operation of the Project, or the financial condition of the Borrower;
 - (e) FINANCIAL CONDITION: Since the date of the financial statement furnished to the Government as a part of the loan application, there have been no changes except such changes as

are necessary and incidental to the ordinary and usual conduct of the Borrower's affairs, in the character of the assets or the financial condition of the Borrower, and the same are as favorable as at the date of said financial state-

ment;

(d) FEES AND COMMISSIONS: No fee or commission has been or will be paid by the Borrower or any of its officers, employees, agents or representatives, and no agreement to pay a fee or commission has been or will be entered into by or on behalf of the Borrower, or any of its officers, employees, agents or representatives, in order to secure the loan and—or grant

hereunder;

(e) AFFIRMATION: Every statement contained in this Agreement, in the Borrower's loan application, and any supplement thereto or amendment thereof, and in any other data submitted or to be submitted to the Government by or on behalf of the Borrower is, or when so submitted will be, correct and complete, and no relevant fact materially affecting the Bonds, the Grant, or the Project has been or will be omitted therefrom.

8. INDEMNIFICATION. The Borrower will indemnify the Government and all purchasers of the Bonds from the Government against any loss or liability incurred by reason of any inaccuracy or incompleteness in any representation contained herein. In the event that there shall be any such inaccuracy or incompleteness, the Government shall be entitled (in addition to the above right of indemnification and any other right or remedy) to tender such Bonds or any part thereof to the Borrower and recover the price paid therefor by the Government.

9. USE OF GOVERNMENT'S NAME. Without the prior written consent of the Government, the Borrower will not refer to this Agreement or to any purchase by the Government of the Bonds as an inducement for the purchase of any securities (including Bonds repurchased from the Government) of the Borrower, and will not permit any purchases

from it of any such securities to do so.

10. SALE OF BONDS BY THE GOVERNMENT. The Borrower will take all such steps as the Government may reasonably request to aid in the sale by the Government of any or all of the Bonds. Upon request, the Borrower will fur-

nish to the Government or to any purchaser from the Government of 25 per centum in aggregate principal amount of the Bonds, information for the preparation of a bond circular in customary form, signed by the proper official of the Borrower, containing such data as the Government or such purchaser may reasonably request concerning the Borrower and the Project.

- 11. EXPENSES. The Borrower will pay all costs, charges and expenses incident to compliance with all the terms and conditions of this Agreement on its part to be complied with, including, without limiting the generality of the foregoing the Bonds and obtaining all legal opinions required herein to be furnished by the Borrower.
- 12. SUPPLEMENTAL INSTRUMENTS. Upon request the Borrower will furnish such data, agreements and other instruments as the Government may deem necessary or desirable in connection with the performance of the obligations of the Borrower under this Agreement or the Bonds.
- 13. AGREEMENT NOTE FOR THE BENEFIT OF THIRD PARTIES. This Agreement is not for the benefit of any person or corporation other than the parties thereto, their respective successors or assigns, and neither the holders of the Bonds nor any other person or corporation, except the parties hereto, their respective successors or assigns, shall have any rights or interest in or under this Agreement, except as expressly provided for herein.
- 14. VALIDATION. The Borrower hereby covenants that it will institute, prosecute and carry to completion in so far as it may be within the power of the Borrower, any and all acts and things to be performed or done to secure the enactment of legislation or to accomplish such other proceedings judicial or otherwise, as may be necessary, appropriate or advisable to empower the Borrower to issue the Bonds and to remedy any defects, illegalities and irregularities in the proceedings of the Borrower relative to the issuance of the Bonds and to validate the same after the issuance thereof to the Government, if in the judgement of the Government such action may be deemed necessary, appropriate or advisable.
- 15. MISCELLANEOUS. This Agreement shall be binding upon and insure to the benefit of the parties hereto and their successors and assigns, and shall inure to the benefit of the holder from time to time of any of the Bonds; provided, however, that no rights of the Borrower hereunder shall be assignable except with the prior written consent of the Gov-

ernment. All obligations of the Borrower hereunder shall cease upon payment in full of all the Bonds. This Agreement contains the entire agreement between the parties, and shall be governed by and construed in accordance with the laws of the District of Columbia.

IN WITNESS WHEREOF, the City of Nashua, Hillsborough County, New Hampshire, and the UNITED STATES OF AMERICA have respectively caused this Agreement to be duly executed as of the day and year first above written.

CITY OF NASHUA, HILLSBOROUGH COUNTY, NEW NEW HAMPSHIRE,

By WILLIAM F. SULLIVAN,
Mayor.

Now, therefore, said Loan Agreement, so-called, is hereby approved, and Mayor William F. Sullivan, of said City of Nashua, is hereby authorized and directed to execute and deliver, the said Loan Agreement on behalf of the said City of Nashua, with and to the Federal Emergency Administrator of Public Works, on behalf of the United States of America.

Passed November 14, 1933.

Approved November 15, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR TO EXECUTE AN AGREE-MENT WITH THE NEW HAMPSHIRE STATE HIGH-WAY DEPARTMENT TO PREVENT ENCROACH-MENTS AND TO ALLOW FREE FLOW OF TRAFFIC ON HIGHWAYS IMPROVED UNDER THE NATIONAL INDUSTRIAL RECOVERY ACT

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three

RESOLVED, By the Board of Aldermen of the City of Nashua:

WHEREAS, the following agreement has been submitted to the City of Nashua for execution:

"The City of Nashua, State of New Hampshire, herein-

after referred to as the City, and the New Hampshire State Highway Department, heremafter referred to as the Highway Department, hereby agree as follows:

- 1. That the Highway Department will submit a project for the improvement of 3.065 miles of the Daniel Webster Highway from the Massachusetts State Line at Nashua and running northerly to about 75 feet north of Lily Avenue and to be designated as U. S. Public Works Project No. N. R. M. 239-E and No. N. R. M. 16 and will recommend its approval by the Secretary of Agriculture for construction with funds apportioned to the State under Section 204 of the National Industrial Recovery Act.
- 2. That the said City hereby agrees obligates and binds itself to prevent any eneroaehments within the right-of-way limits of said Highway; agrees to regulate parking of vehicles and to restrict the parking of said vehicles so as not to obstruct or impede the free flow of traffic over said Highway; and. furthermore, agrees to not pass any laws, rules, regulations or ordinances which would be in conflict with the above prescribed conditions.

It is further agreed that the contents of this Agreement be spread upon the official minutes of the Council of the City of Nashua, N. H., and a copy of this contract be filed with the New Hampshire State Highway Department."

Now therefore, said agreement is hereby approved, and Mayor William F. Sullivan, of the City of Nashua, is hereby authorized and empowered to execute said agreement on behalf of the City of Nashua with the New Hampshire State Highway Department.

Passed November 28, 1933.

Approved November 29, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

AUTHORIZING THE MAYOR AND TREASURER TO ISSUE BONDS IN THE AMOUNT OF ONE HUNDRED SEVENTY-THREE THOUSAND DOLLARS (\$173,-000) TO PAY FOR PUBLIC IMPROVEMENTS OF A PERMANENT NATURE ON STREETS IN THE CITY OF NASHUA

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three

RESOLVED, By the Board of Aldermen of the City of Nashua:

Pursuant to the provisions of a resolution heretofore passed on September 12, 1933, by the Mayor, entitled:

"Resolution Authorizing the Mayor and Finance Committee to Make Application for a Loan and Grant Under the Provisions of the National Industrial Recovery Act,"

and further, pursuant to the provisions of Chapter 59 of the New Hampshire Public Laws, and to the provisi ns of a Special Act which was approved May 4, 1933, entitled:

"An act empowering the City of Nashua to incur debt to the amount of six (6) percent of its valuation."

the Mayor and City Treasurer are hereby authorized to issue and sell, either to the United States of America or to any other purchaser, under the direction of the Finance Committee, negotiable general obligation coupon bonds of the City of Nashua, registerable at the option of the holder as to principal and interest, in the aggregate principal sum of one hundred seventy-three thousand dollars (\$173,000).

Said bonds are to be issued for the purpose of paying for public improvements of a permanent nature by removal of street railway tracks and filling, rolling and repairing of the areas disturbed, with the same type of pavement that exists outside the track area, on Amherst, Canal, East Pearl, Temple, Amory, East Hollis, Hudson, West Pearl, Palm, Lake, Allds. Williams, Arlington, Monroe, Almont and Abbott Streets, and the proceeds of the sale of said bonds are hereby, appropriated for that purpose.

Said bonds shall be payable to bearer, shall be dated November 1, 1933, shall bear the City seai, shall be signed by the Mayor and countersigned by the City Treasurer, and there shall be one hundred seventy-three (173) bonds of one thousand dollars (\$1,000) each, due and payable nine thousand dollars (\$9,000) on the first day of November, 1934, nine thousand dollars (\$9,000) on the first day of November each succeeding year thereafter to 1952, inclusive, and two thousand dollars (\$2,000) on the first day of November, 1953.

Said bonds shall bear interest at the rate of four (4) percent, per annum, and said interest shall be paid May 1, 1934, and semi-annually thereafter on the first days of May

and November in each year.

Said bonds shall be general obligations of the City of Nashua, payable as to both principal and interest from ad valorem taxes which may be levied without limitation as to rate or amount on all the taxable property within the terri-

torial limits of the City of Nashua.

Both principal and interest shall be payable at the office of the City Treasurer, Nashua, New Hampshire, or, at the holder's option, at the First National Bank of Boston, Boston, Massachusetts, in such funds as are, on the respective dates of payment of principal of an interest on the said bonds, legal tender for debts due the United States of America.

The coupons shall bear the fac-simile signature of the City Treasurer. None of the said bonds shall be obligatory without the authenticating certificate of the said First Na-

tional Bank endorsed thereon.

If the bonds are to be sold to the United States of America, they shall be in form and text satisfactory to the Government.

Passed December 12, 1933. Approved December 13, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three.

AN ORDINANCE

AMENDING CHAPTER 31, SECTION 16 OF THE TRAFFIC REGULATIONS

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua that Chapter 31, Section 16, be amended by

striking out all of said Section and in place thereof insert the following:

16. South Street. South Street is designated as a one-way street and all parking therein shall be on the west side of the street, and for a period of not exceeding one hour. All vehicles operating along South Street shall enter from East Pearl Street and travel in a southerly direction.

Passed December 12, 1933.

Approved December 13, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

RESOLUTION

IN FAVOR OF CALLING A SPECIAL SESSION OF THE GENERAL COURT FOR THE PURPOSE OF ENACTING LEGISLATION FOR THE CONTROL OF SPIRITUOUS LIQUORS

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three

RESOLVED, By the Board of Aldermen of the City of Nashua, That the Board of Aldermen hereby place themselves on record as being in favor of a Special Session of the General Court for the purpose of enacting the necessary legislation for the sale and control of spiritous liquors within the State of New Hampshire. That a copy of this Resolution be forwarded His Excellency the Governor and a like copy to each of the Honorable Councillors.

Passed December 12, 1933.

Approved December 13, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

CITY OF NASHUA

In the Year of Our Lord One Thousand Nine Hundred and Thirty-three.

AN ORDINANCE

AMENDING THE RULES AND ORDERS OF THE BOARD OF ALDERMEN

BE IT ORDAINED, By the Board of Aldermen of the City of Nashua:

That Section 5 of the Rules and Orders of the Board of Aldermen be amended by adding after the words

"Street Acceptances"

the words

"Planning"

so that said Section when amended shall read as follows:

SECTION 5. The President shall be Chairman ex-officio of all standing Committees of the Board of Aldermen and the President shall appoint four Aldermen on each of the following standing Committees of said Board:

Lands and Buildings Printing and Stationery Election and Returns Traffic Regulations Street Acceptances Planning

and he shall appoint two Aldermen on each of the standing Committees of said Board:

Street Lights
Licenses
Bills in Second Reading
Rules
Publicity and New Industries

Passed Tember 26, 1933.

Approved December 27, 1933.

Attest:

ARTHUR L. CYR, City Clerk.

Report of the Police Commissioners

To His Honor, the Mayor, and the Honorable Board of Aldermen of the City of Nashua:

Gentlemen:

Enclosed find detailed report of the number of arrests, disposition of the same, and incidental service, etc., of the Police Department for the year 1933.

The efficiency of the Department has been greatly increased during the year and all complaints on calls have been promptly attended to. This Department has employed the same number of officers during the year and has kept within its appropriation.

Respectfully,

OTTIS E. MERCER, Chairman, J. HOWARD GILE. JOHN W. COFFEY, Police Commission of Nashua.

Report of the Chief of Police

To the Board of Police Commissioners of the City of Nashua: Gentlemen.

I hereby submit the Annual Report of the Chief of Police for the year ending December 31, 1933.

The total number of arrests for the year was 1197; of these, 1167 were male and 30 were female.

Report of the Fire Commissioners

To the Honorable Mayor and Board of Aldermen:

Gentlemen:

We respectfully submit to you the report of the Fire Department for the year ending December 31, 1933.

The Board of Fire Commissioners, consisting of H. C. Lintott, C. H. Austin and E. W. Dunklee, met January 1st and organized by electing H. C. Lintott as Chairman and E. W. Dunklee as Clerk.

Fire Prevention Week, October 9th to 16th was observed by the Department in a fitting manner.

INSPECTIONS BY THE DEPARTMENT

Officers and members of the Department have made over (2000) two thousand inspections of buildings, cellars, yards, etc., up to the end of the year, to guard against the accumulation of rubbish and inflammable material, also to note any condition liable to cause fire.

These inspections are of great benefit to the Citizens and property owners in general. The inspections are also a great value to this Department, allowing the members to familiarize themselves as to the nature of the contents and construction of different buildings within their districts.

We think every effort should be made to lower our Insurance rates as the loss this year is the lowest in thirty-five years.

FIRE ALARM TELEGRAPH SYSTEM

The fire alarm telegraph system is in first class condition considering its age, etc. Two new boxes were installed during the year. One at the corner of Main and Allds streets and the other at the corner of Locke street and Atherton avenue.

In conclusion we wish to thank His Honor, the Mayor, the members of the Board of Aldermen, for their co-operation and interest in our Department, to the Board of Public Works, to the Chief of Police and the members of the Police Department, and to the Superintendent of the Water Works and its employees, and to the employees of the Telephone Company,

also to the Public Service Company and its employees, for valuable services rendered.

The Officers and Members of the Fire Department have our commendation and sincere thanks for the efficient and faithful manner in which they have performed their duties.

Respectfully submitted,

H. C. LINTOTT,

C. H. AUSTIN,

E. W. DUNKLEE,

Fire Commissioners.

Report of the Board of Public Works

Nashua, N. H., December 31, 1933.

The Honorable Board of Aldermen:

Nashua, N. H.

Gentlemen:

The following is a report of the Board of Public Works for the year 1933.

The appropriation was as follows:

Regular \$117.000.00

A special fund of \$18,261.04 was provided by an act of Legislature from the State Highway Funds, for improvements of Class Five Roads.

The Middle Dunstable Road was continued with State and City Funds. Most of the labor was furnished by the State Welfare. The State and City furnished the equipment and materials. One and one-half miles were graded, gravelled and tarred.

The money for Class Five Roads was spent gravelling the following roads:

Colburn Avenue
Spit Brook Road
Buckmeadow Road
Ridge Road
Ferry Road
Gilson Road
Searles Road
Part of East Dunstable Road

SIDEWALKS

There were 1,602.52 Square Yards of Cement Concrete sidewalks constructed in 1933. This equals 0.66 miles of sidewalk five feet wide.

There were also 133.31 lineal feet of cement back curb constructed, and 9.9 lineal feet of cement concrete steps.

CATCH BASINS

There were nine new catch basins constructed in 1933.

MANHOLES

There were seventeen new manholes constructed in 1933.

SEWER CONNECTIONS

There were twenty-six private sewer connections made in 1933.

TARRING

As there was practically no tarring done in 1932, the streets were in need of it this year.

Every street was done over, and several secondary roads, using 224,000 gallons of tar, covering 782,000 square yards.

SEWERS

There was a sewer constructed on Wellington Street, using twelve inch pipe, length 1378.10 feet.

EXPENDITURES

The following is an itemized list of the expenditures as they are charged to their accounts:

HIGHWAY DEPARTMENT

Bridges and Culverts	\$ 13.71	
Pensions	795.00

Report of the Public Library

To the Trustees of the Nashua Public Library: Nashua, N. H.

The annual report of the Public Library for the year ending December 31, is herewith submitted.

At the beginning of the year it was hardly expected that the work would increase over 1932 on account of better industrial conditions throughout the city, yet the home circulation reached 217,161, a small gain of 950. In a year with less money spent, fewer books purchased, less extra help employed, it is gratifying to report even a small increase in service given.

Never before has it been necessary to keep in circulation so many unattractive, very much soiled and worn out books of fiction and it can be truly said that there has never been so little responsibility among borrowers in the handling of books in general. Indeed this has been a banner year for c relessness and mishaps of all kinds.

A great number were lost through contagious diseases, several never returned by parties who had left town taking them along as their own personal property, leaving no address, books damaged and no restitution made, books claimed returned and never found. A year with no depression in the puppy world for never before have so many books been returned and damaged beyond repair by these mischievous little pets.

It has been necessary to rebind more books than formerly, partly because there was no time to repair them, also when fewer titles are purchased, older ones must be kept in shape to circulate freely. Discards were smaller this year on account of the necessity of using each book longer than it was wise or sanitary to do in many cases. It is safe to say that between three and four hundred books have been covered with heavy gray paper to keep them in circulation a few weeks longer.

This year 12,210 volumes were given out for Reading Room use, a gain of 4,169, which added to the home circulation makes a grand total of 229,401. This gives a better idea of books used in the building and really should be counted in as a total of the year's work. It means many extra steps taken up and down stairs and much research for magazine articles. When it is realized that scarcely any of these 12,240 were given out without special time and effort in finding the help wanted, the extra work for the desk assistants shows plainly.

The total adult circulation at the main library was 147,-234, a gain of 2,207 and a gain in non-fiction of 4,542. January was the largest month with 15,318 eirculated. The largest day was 936, a loss of 21 and an average daily eirculation

of 489, a gain of 11.

The children's department had a circulation of 51,230, a loss of 1,503. November was the largest month with a circulation of 5.607, and the largest day was 427. The average daily circulation was 170. This loss comes largely through the Thursday afternoon and evening closing as reported last year, for which there seems to be no remedy at present. This department is open Thursday forenoon, always, but no books

are given out because schools are in session. As the city grows, a yearly loss must be expected because distances are too great for many children to use the library freely. Here is a great service in the future—bringing the books to the children, which is now considered to be essential in cities of any size. Book trucks are in use for this purpose all over the country.

Crown Hill shows a circulation of 18,693, a gain of 246. The largest month was January with a circulation of 2,006 and the average daily circulation 62. The largest day was 119. Until definite plans were made regarding the heating system very few books were added. The library is open only 16 hours a week. Does it pay?

Twenty-seven per cent of the total circulation was nonfiction with 6.9 books circulated per capita. Last year the per cent of non-fiction was 25 and per capita 6.87. The cost

of circulating a book was approximately 6½ cents.

The foreign circulation of 6,338 is a loss over last year by 201 volumes, simply because new books could not be added. The circulation in French was 5,677, Polish 313, Greek 158, Lithuanian 149, German 21, Russian 9, Italian 8, Spanish 2 and Yiddish 1. The juvenile department circulated 774 in French and Crown Hill 122. There is great need of more titles in Polish, Lithuanian and Greek.

This year the magazine circulation was 7,391, a gain of 1,137. The magazine committee each year endeavor to go over the list carefully, dropping those that are little used and substituting others which have a more general interest. One hundred and six magazines are taken and 35 given. Subscriptions to only seven newspapers seem small and they do not supply the demand. Every paper gets very hard usage and is worn out and badly torn after being handled a day or two. It is recommended that the committee take into consideration the addition of at least two more. Two French papers, one Polish, the Pepperell Free Press and the Christian Science Monitor are given.

In some libraries the newspapers have been entirely eliminated, the reason being that they bring in an undesirable loafing element that should be housed and cared for in a different city department.

After magazines, literature stands next with a circulation of 5,198, biography 4,846, fine arts 3,635, useful arts 3,488, travel 3,445, history 2,287. These figures apply to the adult department, only. Four hundred and eighty-three pictures were circulated, and while not a large showing, the collection

proves of great value each year and could be made more so if time could be spent in enlarging it. These pictures are a constant reminder of Mr. Leonard Burbank who gave much time and effort in starting the collection.

Nine hundred and sixty-five new adult borrowers were registered during the year with 717 in the children's department. One thousand seven hundred and twenty-eight books were purchased, 177 gitts and 31 by binding magazines and newspapers, making the total number of additions, 1,926. Subtracting 417 diseards makes the gain to the Library 1,519 volumes, or, approximately 49,565 volumes December 31.

Miss Manning, the children's librarian, gave instruction to 295 pupils from the public schools. Three hundred and ninety have attended the story hours and 131 the poetry hours. Five hundred and twenty-three books were loaned to the schools for supplementary reading and reference purposes.

A World Treasure Hunters' Club was conducted by Miss Manning in her department and by Mrs. Woodbury at Crown Hill during July and Angust to create an interest in the summer reading of travel books. This was a great success and many books were read. Certificates were given out at a party in October to over thirty boys and girls who were credited with reading the greatest number.

ok Week was observed as usual in the children's room and at Crown Hill with special displays of new books and other educational features. The Trustees' room was made a comfortable and attractive browsing place for adults to enjoy many of the recent additions which were displayed.

A call was made in September by the president of the New Hampshire Library Association, Miss Julia Mayo, for books to be sent to the boys in the C. C. C. camps throughout the state. The Nashua Library was able to collect nearly

300 of in kind wanted.

In November when money was available for C. W. A. workers, your librarian was consulted by Miss Dorothy Annable, Secretary of the New Hampshire Public Library Commission, regarding the number that could be used to advantage in the Nashua Library. A book repairer was much needed and was so reported. Miss Esther Moriarty of Nashua, an applicant, was given training in mending at the Commission and was sent to the Library on December 11 for four weeks with a possibility of extending time. She has done splendid work and has been a great help.

Exhibitions of interest have been held during the year as usual. Will it not be possible to set aside a small amount

each month to take care of the expense involved in securing some of these fine exhibitions of paintings? The librarian has furnished a car and driver many times with only the expense of gasoline to the Library. The transportation is a problem but it is a great incentive to continue each month when the public are so very appreciative. Many of the art galleries in Boston have been most generous and exceedingly kind in loaning paintings by prominent artists without charge if transportation was furnished.

It became evident in September that special police duty would have to be continued and Mr. Edward Hartwell was engaged for three evenings a week as formerly. His help has been much appreciated by the desk assistants. A very different atmosphere is created by his presence and adults can now really enjoy the Library if they are fortunate enough in securing seats in either the Reading or Newspaper Rooms.

Groups of books have been sent to the Mary E. Hunt Home, as in previous years. Inquiries were made regarding similar loans to one of the hospitals which indeed would be a splendid opportunity for service if book funds were available to meet this extension.

The increased interest in music throughout the city calls for more additions in this line of books and should be considered next year.

Nashua is expected to have at least one library neighborhood meeting during the year but it has been impossible to plan for one. Your librarian attended the New Hampshire Library 'sociation meeting held in Peterborough August 22-24 in connection with the Centenary of the establishment of public libraries. Nashua was not represented at the meeting of the American Library Association held in Chicago in October. A score 'distinguished delegates from abroad and more than 3,000 from this country were in attendance at this important meeting.

Very little time has been lost by sickness among the members of the staff and there has been no changes in the personnel. More and more persons each year depend upon the Library for information of all kinds. The majority of reference work, however, is with the public schools. If no school librarian is provided, there should be money for extra help in the Public Library.

Reference work is a service that all libraries are glad to give, indeed it is a part of each day's work, yet impossible to serve efficiently always, with a small staff and no reference librarian.

The following may have been mentioned in an earlier report but it may well be repeated. The American Library Association sets the standard of one assistant to every 20,000 books circulated. Applying this to the Nashua Library it is found that the librarian with her assistants number eight. One is not a safaried worker but is on part time as needed. With a circulation of 217,161 it is easy to see the struggle to meet the high degree of efficiency expected; in fact, it is impossible to keep the work up.

The librarian made 2,414 identification cards during the year. Many are 10st, many go through the laundry and others are worn out and of course have to be replaced, often. Every registration goes through her hands to be checked over, given a number, a card and recorded. Formerly one assistant could find time to collate, paste and prepare books for the cataloger and do some repair work but the librarian has had much of this work to do, necessitating the postponement of her own particular duties to hours outside the Library.

The cataloger made 5,940 catalog cards. Three thousand one hundred and sixty-seven overdue notices were sent out, a small per cent. of which were telephone calls, and 2,855 book reserve notices from the adult department, alone. These are a very few examples of the crowded detail work which must be done.

A business man, not a patron, was asked how many books he thought had been circulated at the Library during the year. "About 25,000", he said. The question was asked another man on the same street and his answer was "100.000". This shows that the average citizen has little idea of the use and value of this Library or of Libraries in general.

Deep appreciation is extended to the Library staff for their splendid ecoperation, support and faithful service during a very busy year.

To the many friends for gifts of books, magazines and newspapers and to those who contribtued books for the C. C. C. eamps, acknowledgment and thanks are given.

It would be difficult to earry on successfully without the help of the Telegraph Publishing Company who have given a generous amount of space to library publicity. Grateful thanks to the Company.

Even with the many problems arising during the year, it is with a deep feeling of gratitude to the Trustees and City Fathers that I close my report. Not a single Ebrary day has

been sacrified and salaries have been paid when due, a record of which to be proud in these hard days of financial difficulties throughout the country.

Particularly to the Trustees, I extend my thanks for their continued interest and support.

Respectfully submitted,

CLARA E. SMITH, Librarian.

Administrative Officer Zoning Ordinance

To His Honor the Mayor and the Board of Aldermen: City of Nashua, N. H.

Gentlemen:

I respectfully submit to you my report as Administrative Officer of the Zoning Ordinance for the year ending December 31, 1933:

The number of Building Permits issued	280
The number of Conforming Certificates issued	180
The number of Non-conforming Certificates issued	16

As indicated in the following tabulation, some contemplated construction authorized by the above permits was not undertaken, and the following classification of the various types of construction, minus these, represent new construction for the past year.

Per	mits	Not	New
I	ssued	Constructed	Construction
One Family Dwellings	37	7	30
Two Family Dwellings	1		1
One Car Garages	39	5	34
Two Car Garages	21	1	20
Open Porches	44	3	41
Closed or Sun Porches	21	1	20
Ornamental Fences, etc	29	4	25
Additions and Alterations			
to Residences	30	3	27
Additions and Alterations			
to Private Garages	6		6
Private Workshops	4		4
Offices, Stores and Shops.	9	1	8
Gasoline Service Stations.	1		1
Poultry Houses, Pig Pens,			
Sheds, etc	38		38
Billboards and Signs	3		3
Additions and Alterations			4
to Stores	9		9
Storehouses	6	1	5

Public Garages	1	1
Gasoline Pumps	5	5
Stables	2	2

While the actual number of building permits issued during the past year was slightly under the number issued for 1932, the amount of new construction was substantially the same as for the previous year.

Administering this ordinance has required considerable time; it has required many meetings and viewings with the Zoning Board of Adjustment; much clerical and plan work and inspections of the use and location of all the structures for which building permits were issued, also the issuing of certificates of occupancy.

People in general have become more familiar with its provisions and requirements and requests for the major non-conforming things are gradually becoming fewer, also the direct violations.

Respectfully submitted,

FRED L. CLARK, Administrative Officer.

Zoning Board of Adjustments

Nashua, N. H., January 18, 1934.

To His Honor the Mayor and Board of Aldermen, City of Nashua, N. H.

Gentlemen:

The following is the annual report of the Zoning Board of Adjustment for the year ending December 31, 1933.

During the past year nineteen (19) public hearings were held. There were thirty-two (32) cases which came before the Board for decision, these being disposed of as follows:

Petitions	granted and relief given	24
Petitions	granted for one year	5
Petitions	denied	2
Petitions	withdrawn	1

Ninety and six-tenths per cent of the irregular cases acted upon by this Board were granted, either in full or with reasonable conditions applied to them, so that the intent of the petitioner was accomplished yet, the provisions of the ordinance safeguarded.

A classification of the requests for variations, upon which we acted, is as follows:

Variation of the front yard requirement	6
Variation of the rear yard requirement	2
Variation of the side yard requirement	3
Variation of the front and side yard requirement	3
Variation of the side and rear yard requirement	1
Variation of the front and rear yard requirement	1
Variation of the area, front and side requirements	1
Variation of the area and side yard requirement	1
Extension of non-conforming uses	2
Extension of non-conforming building	1
Paint shop in "A" Residence District	1
Gasoline service station in "A" Residential District	1
Wood yard in "A" Residence District	1
Signboards in Residence Districts	2
Variation of use regulations in Residence Districts	4
Renewal of permit for Filling Station	1
Renewal of permit for Golf Driving Range	1
	_

As is shown by the above elassification, a large percentage of the requests received were for minor variations of the set back requirement and were considered as reasonable requests; however a few of the requests were of a more serious nature, and if counted would have resulted in great injustice to property owners in the immediate neighborhood; further it would have had a tendency to destroy the benefits provided by the Zoning Ordinance; namely, the general welfare of the community.

In administering the duties of the Board full consideration of the fact that the petitioners, in order to secure an appropriate improvement of a building or lot of restricted area, size or shape has been given, bearing in mind that such improvement should be in accordance with the general purpose and intent of the ordinance, and substantial justice done.

Respectfully submitted,

HORACE E. OSGOOD, Chairman, WILLIAM H. CADWELL, JAMES H. GLYNN, KOSTAS G. BOUZOUKIS, SAMUEL J. POIRIER, Clerk.

Report of Examination of Plumbers

Nashua, N. H., January 3, 1934.

To His Honor the Mayor and Board of Aldermen:

Gentlemen:

The Board for the Examination of Plumbers respectfully submits its report for the year ending December 31, 1933.

The membership of the Board consisted of Dr. Deering G. Smith, Chairman of the Board of Health, Fred L. Clark, City Engineer and Samuel J. Bingham, a plumber of many years practical experience, and was organized with Samuel J. Bingham -- Chairman and Fred L. Clark as Secretary and Plumbing Inspector.

During the past year there were forty-eight (48) Master or Employing and fifty-eight (58) Journeymen plumbers licensed by the City of Nashua through this Board. These licenses expire March 31, 1934. Regular monthly meetings have been held the first Monday of each month and the written and practical examinations, to determine the fitness of applicants for plumbing licenses, have been conducted as often as were necessary and during the past year five licensed Journeymen have successfully passed the required examinations for Master Plant were granted Master Licenses. One apprentice was examined and granted a Journeyman Plumbers license.

Changes in our plumbing regulations were made by your Honorable Board and the further use of steel pipe, commonly known as black iron pipe, as waste lines was discontinued; this in our opinion, was most desirable as the use of same was not in strict accordance with the intent of the regulations and not in keeping with good practice. We have had the full cooperation of the Board of Health and in many instances joint investigations and inspections have been conducted with them.

The ordinance as a whole is operating satisfactorily for the benefit of both the property owner and the plumber. It assures the former of uniform, safe and sanitary work without unnecessors expense and standardizes the work without andue hardship upon the latter, who has shown a willingness to co-operate with us.

Plumbing inspections were made in two hundred eightytwo (282) buildings during the past year and the total number of inspections made was four hundred seventy-eight (478).

Respectfully submitted,

SAMUEL J. BINGHAM, Chairman, DEERING G. SMITH, M. D. FRED L. CLARK, Secretary.

Report of the Recreation Commission

To the Honorable Mayor and Board of Aldermen.

Gentlemen:

The activities conducted by your commission during the past season were the same as in other years—Skating, Swimming, Tennis and Playgrounds. Principally due to the increase in attendance, this season will rank as one of the best.

SKATING

As in the past, skating and hockey facilities were offered the public at both South Common and Artillery Pond. Due to the open winter the season was not as long as some in the past, but larger crowds enjoyed their favorite winter activities, especially at South Common.

SWIMMING POOL

The swimming pool opened the last of June under the direction of Mr. O'Neil, with the assistance of two life guards and Miss Dorothy Bearse.

During the hot weather, the pool was just as popular as ever with the children, but the older people seem to prefer

going to the lakes.

However, the construction work undertaken this winter by the C. W. A. to enlarge and deepen the pool will fill a long falt want and will no doubt cause an increase in attendance for the coming season.

TENNIS

The six tennis courts were well patronized from daylight to dark, from early in the spring to late in the fall. The courts were supplied with new nets and the South Common courts repainted. One of the elay courts at North Common was resurfaced by the players in that section without any expense to the Recreation Commission.

Four new courts are under construction at South Common by the C. W. A. This will provide six courts in that section and will relieve the congestion that has been there for so long.

PLAYGROUNDS

The playground season extended full time again, namely eight weeks. This was an increase of two weeks over that of last season. Grounds were opened at South and North Common, Crown Hill, Nashua Mills, Blossom Street and O'Donnell School.

The attendance was larger than ever. Based on per-person-period basis, the attendance was as follows:

South Common	12,245
North Common	3,783
O'Donnell	9,191
Blossom Street	8,016
Nashua Mills	12,210
Total	52,607

As the total cost of operating the playgrounds was \$1831.60, this brings the cost of per person-period to 3.5 cents, the lowest ever.

The different activities as conducted during the eight weeks were as follows:

Boys, Junior and Senior baseball; girls, Junior and Senior volley ball and bean bag; girls baseball, swimming, handeraft; Boys Junior and Senior horseshoe, dramatics, treasure hunt, pet show and pienics.

The handcraft work was under the supervision of Mrs. Isobel MacDuffie for half time week. In spite of this the calibre and quantity of the work compared favorably with the past.

A financial statement is hereby appended.

Respectfully submitted,

C. II. BABBITT, Chairman, A. F. CHENEY, HE EN B. UNDERHILL, OSCAR FLATHER, J. M. LEVESQUE.

F. X. TARDIF.

F. J. FINNING, Clerk.

Report of the Superintendent of Parks

To the Board of Park Commissioners:

'Gentlemen:

During the year 1933, as in 1932, we have been handicapped by the smallness of our appropriation. Therefore, the

strictest economy has been necessary and little could be done except the routine work of maintenance.

During the winter months we removed the browntail and gipsy moths from all trees within the city limits, in the parks, on the streets and on such private property as was not cleaned by the owners. We repaired and painted our settees, swings and such equipment, and repaired the canvas used at the North Common baseball grounds. We hauled sand and loam to fill and grade an excavation on Greeley Park which had been an eyesore for years. Also einders and filling to further extend our driveway system east of Concord Street. We also trimmed a large number of trees at Greeley Park, Monument Square, Deschenes Oval and South Common.

The spring, summer and autumn are always busy seasons Our time was fully occupied in cleaning up planting flower beds, mowing grass, cultivating and caring for flowers, shrubs and perennials and keeping the baseball fields in condition, and finally in cleaning up and getting everything ready for winter.

A special appropriation provided material for a set of permanent bleachers at the South Common, having a seating capacity of 500. The labor was by volunteers from the unemployed.

This volunteer labor was also used to cut bushes, grade road material and to construct cascades, rustic steps and bridge, and water gardens on the brook at the west end of Greeley Park. This latter project attracted the attention of members of the Nashua Woman's Club who very generously gave and planted flowers and bulbs to beautify this section.

Later in the year the National Civil Works Administration provided money to employ a large crew of men filling and grading Artillery Pond in preparation for the construction of a modern athletic field. Considerable progress has already been made. A small crew of C. W. A. workers are at Greeley Park trimming dead and broken branches from the trees.

Respectfully submitted,

WM. R. KIRKPATRICK, Superintendent of Parks.

Report of the City Solicitor

Nashua, N. H. March 31, 1934

To the Honorable Mayor and Board of Aldermen of the City of Nashua:

Gentlemen:

I submit the following report for the year ending December 31, 1933.

In addition to the usual minor suits against the City that were disposed of without Court trial, the numerous ordinances and resolutions that were drawn during the year, as well as other legal documents, the many collection letters that were written for overdue poll taxes, the proofs of debt of bankrupts that were drawn and filed for taxes, and the many opinions, both written and oral, given to the City Departments and City Officials, the City Solicitor, together with other department heads, devoted much time and effort almost constantly for four months to compiling statistics and drafting applications for the projects planned by the City to take advantage of the \$1,000,000 which was made available to provide unemployment relief in Nashua under the terms of the National Industrial Recovery Act.

Many meetings and conferences both in this City and elsewhere were attended in connection with the Federal Emergency Administration. Various drafts of resolutions pertaining to the authorization of applications and issuance and sale of bonds were drawn. A resolution was drawn authorizing the Mayor and Finance Committee to make application for a loan and grant of \$1,000,000, of which \$300,000 was to be a direct grant, from the Federal Government, the same to be used for necessary construction projects in Nashua. The projects were the tearing up of some six miles of car tracks in the City, a new sewer plan, improvement of Artillery Pond improvement to the North and South Commons, a school building, and other matters. The Federal Government approved the \$173,000 project for removal of street railway tracks and re-pavement of streets, and the \$189,000 project for sewerage development. The projects for which applications were made were approved by

the Federal Engineer for the New Hampshire district, and were at Washington for final approval at the end of the year. The City executed a loan and grant agreement with the Federal Government for \$173,000 for street improvements, and the bonds were being prepared for that project at the end of the year.

A petition to abandon part of Concord and Pennichuck Streets was drawn and filed on behalf of the City with the Superior Court, and was granted.

To clear a title and straighten out an error made in 1901, a resolution authorizing the execution of a deed and a deed were drawn for lot 241 on Lindwood Street to the George F. Caldwell estate.

A resolution and deed were drawn and executed selling the O'Donnell School property on Chandler Street.

A Petition for Financial Security was drawn and filed with the Commissioner of Motor Vehicles as the result of an accident involving an automobile of the Police Department and one Sarkis Koltookian, of Concord. Said Koltookian was ordered to file a bond to cover any judgment in an action in court, which he did, and an action was started against him and is now pending in Superior Court.

Respectfully submitted,

ROBERT E. EARLEY, City Solicitor.

Report of the City Physician

April 1, 1934

To His Honor the Mayor and the Board of Aldermen Nashua, New Hampshire.

Gentlemen:

Due to the advent of Public Welfare, figures for the year 1933 are not submitted since they would be inaccurate.

At present the duties of City Physician are limited to police visit, police examinations and border line cases.

Respectfully submitted

E. J. FRASER, M. D. City Physician.

Report of the Board of Health

To His Honor the Mayor and Board of Aldermen:

The Board of Health herewith submits its report for the year 1933.

The control of an epidemic of scarlet fever was our chief problem during the year. This disease broke out in September and it was not until the middle of December that it was practically stamped out. We had the full cooperation of the health committee of the Board of Education which placed at our disposal their two nurses. These, with a third nurse, were used in semi-weekly inspections of all public school children. Similar inspections of all parochial school children were made by our nurses, Misses Morin and McAvoy, who also made the contagious disease calls.

All absentees from both the public and parochial schools were reported to the board of health office and their homes were visited to ascertain the reasons for the pupils being absent. During the last of October, November, and the first of December, this work was done by Good Cheer Society Nurses. They made 1024 calls and found the following

contagious diseases:

Scarlet Fever suspects	24
Chicken Pox	20
Whooping Cough	12
Measles	4
During the fall we quarantined 159 cases of scar	let fever-

Practically all of these cases were very mild, which accounted for the difficulty in controlling the epidemic. Many children were not sick enough to have a physician, and fortunately there were no deaths.

The report of our milk inspector shows the results of ten years work. We consider that the high quality of the milk sold in Nashua is not surpassed by any city in the state.

The number of physical defects found in the parochial school children clearly shows the necessity of doing more work in the schools. Our nurses have made a good start in finding and endeavoring to have these defects corrected. We believe, however, that physicians should be enployed to examine the children and to have charge of this work.

This board cooperated with the Board of Public Works in a clean up-week. The inspection of markets, stores, restaurants and barber shops has continued, and attempts have been made to improve the standard of these establishments.

We wish to call especial attention to Mr. Wright's recommendation that a municipal slaughter house be established. This meets with our approval.

The question of a municipal incinerator was thoroughly investigated. The cost was found to be prohibitive at this time, and accordingly the proposal was dropped. We continue to believe that the collection of garbage should be done by the Board of Public Works in conjunction with the collection of the other refuse of the city.

The tuberculosis and venereal disease clinics are doing very good work, in which they have our cooperation.

Our clerk and her assistants, our nurses inspectors and garbage collectors have continued to do excellent work, for which we wish to commend them.

We append a list of the causes of the deaths occurring in Nashua a list of the contagious disease cases reported, and the reports of the heads of our departments.

Respectfully submitted,

DEERING G. SMITH, M. D. P. J. McLAUGHLIN, M. D. ROMUALD P. LETENDRE

Report of the Health Inspector

To the Nashua Board of Health:

Nashua, N. H.

Gentlemen:

I hereby submit the following report as Health Inspector of the City of Nashua from January 1, 1933, to January 1, 1934:

rr ' (.3	L)
Houses inspected	8
Plumbing and drainage inspections	24
Privy and vault inspections	15
Yard and alley inspections	170
Barber snops inspected	52
Restaurants inspected	48
Bakeries and bakery wagons inspected	12
Food stores inspected	176
Candy factories inspected	10
Complaints investigated	102
Dumps inspected and ordered abated	5
Water sent to Concord for analysis	15
Nuisances ordered abated	18
Common drinking cups ordered abated	2
Lying-in hospitals inspected	2
Infant asylums inspected	10
Bakeries found unsanitary	2
Ice cream plants inspected	3
Boarding houses inspected	9
Fish markets inspected	3

During the year I attended to the various duties of Health Inspector and worked in conjunction with the Milk and the Meat Inspectors.

In April, with the assistance of the Milk Inspector and the Board of Public Works, a "Clean-up" Campaign was conducted throughout the city and we found a big improvement in conditions which had existed in previous years in the yards and streets in the city. More pride is being shown each year by home-makers in every section of the city and the results are most gratifying.

Considerable time has been given to the collection and disposal of the city garbage. In this work I have had at all times the co-operation of the garbage collectors. I recommend that an incinerator be purchased to take care of the disposal of the city's garbage.

The inspection of food stores and markets has been made regularly and I have been greatly assisted in this work by the State Food Inspector, Mr. Joseph X. Duval, of Concord, N. H. There is marked improvement in the condition of the stores, over previous years.

I tender my thanks and appreciation to Mr. Albert E. Smith, the Milk Inspector, who during my illness carried on my work most efficiently.

To the employees of the Board of Health, I also extend my thanks and I am especially grateful to the chairman, Dr. Deering G. Smith, and members of the board, who have been most courteous and helpful to me during the year.

Respectfully submitted,

THOMAS F. CULLEN, Health Inspector.

Report of the Milk Inspector

To the Nashua Board of Health: Nashua, N. H.

Gentlemen:

I respectfully submit the following report as Milk. Inspector from January 1, 1933 to January 1, 1934.

ALBERT E. SMITH, Milk Inspector.

Report of Meat Inspector

To the Nashua Board of Health,

Nashua, N. H.

Centlemen:

I respectfully submit to you the following report as Meat Inspector of the City of Nashua from January 1, 1933, to January, 1934.

The following animals were inspected and slaughtered:

Oem	G-1	Tamba	TT	G	C-1	Tourshoo	TTomm
Cows	Calves		Hogs	Cows	Carves	Lambs	Hogs
January 28	84	133	14	2	7	U	Z
February 16	100	94	17	1	3	0	0
March 21	126	137	2	3	4	0	0
April 20	88	177	2	2	7	0	0
<u>May</u> 18	118	159	1	2	5	0	0
June 14	111	146	0	1	6	0	0
July 14	93	134	2	2	4	0	9
August 16	127	131	2	3	5	0	0
September 19	105	192	14	1	4	0	0
October 32	112	157	90	1	17	3	1
November 47	125	146	74	3	13	0	3
December 31	64	107	27	3	5	0	2
*******			-	_		-	-
Total 276	1253	1713	255	24	70	3	8

About the usual amount and quality was offered in 1933, as was offered in previous years.

I will repeat again at this time, that the only practical solution of obtaining absolutely sanitary conditions in slaughter houses, is to have one built and owned by the city. It could be leased at a figure that would pay at least a fair rate of interest on the money invested. If federal aid could be secured for such a project, it would solve the problem and be of great benefit to the proper handling of native dressed stock.

As in the past, I have had the fullest eo-operation of all the members of the board, for which I wish to express my thanks at this time.

I have also had the advice and co-operation of Dr. Harold Lewis, which has been freely given at all times, and which I appreciate.

Respectfully submitted,

ALDEN L. WRIGHT,

Meat Inspector.

Report of the Board of Health Nurses

Nashua, N. H., December 30, 1933.

To the Nashua Board of Health,

Nashua, N. H.

Gentlemen:

I hereby submit the following summary of the work that I did as part time nurse in the Sacred Heart School from February 2 to December 30, 1933:

Contagious Diseases inspections made	
semi-weekly on all pupils 426	
School Room Inspections	
Children weighed and measured 426	
Rechecks on underweights 3	
Children excluded 26	
First aid treatments 20	
Referred to doctor 225	
Referred to dentist 306	
Health talks (classroom) 18	
Individual personal hygiene talks 426	
Home calls (absentees) 162	i
Home calls (case follow up) 110	,
Notification slips sent home 426	

REPORT OF DEFECTS CORRECTED, MARCH, 1933, TO JANUARY, 1934

DEFECTS FOUND		DEFECTS CORRECTED
Underweight	143	Gained in weight 85
Tonsils	89	Tonsillectomies 21
Teeth	306	Teeth 183
Mental	4	Examined at mental
		clinic 1
Eyes	40	Eyes examined 15
		Glasses fitted 12
Ears	4	Ears 4
Orthepedic	2	Orthepedic 2

At the beginning of the school year only one child was found to be unvaccinated against smallpox. Sixty needy

children were given free milk for one month. Practically all my time in the fall was devoted to the control of the scarlet fever epidemic.

I worked full time from October 26 to December 24, 1933, checking the Sacred Heart School for scarlet fever and also doing the contagious disease work. The following is a summary of the work that I did on contagious disease control:

CASES REPORTED		CALLS MADE	
Scarlet Fever	77	Scarlet Fever	709
Whooping Cough	12	Whooping Cough	18
Erysipelas	1	Erysipelas	1
Chicken Pox	29	Chicken Pox	29
Diphtheria (carriers)	4	Diphtheria	44
German Measles	1	German Measles	1
Measles	1	Measles	1
Mumps	3	Mumps	3
QUARANTINE Establish	ed	QUARANTINE RELEASI	ED

German Measles	1	German Measles	1
Measles	1	Measles	1
Mumps	3	Mumps	3
Scarlet Fever		61 3	14
Diphtheria		5	
Cultures taken			
	ا	109	

Respectfully submitted,

IRENE McAVOY, R. N.

Report of the Board of Health Nurses

Nashua, N. H., December 30, 1933.

To the Nashua Board of Health, Nashua, N. H.: Gentlemen:

I respectfully submit the following report as School Nurse in the four French Parochial Schools, namely: Saint Aloysius, Saint Francis Xavier, Infant Jesus and the Sacred Heart College.

There were 2100 children registered in September, 1933. Of these 679 were examined and weighed upon entrance:

Examination showed:

624	
	Wear glasses 25
13	Wear glasses 5
291	
1	
1	(was taken to a
	mental clinic
18	
	$\begin{array}{c} 291 \\ 1 \\ 76 \end{array}$

^{*17} of these were vaccinated later.

No vaccination clinics were held this year. Children were vaccinated by their family physician and those who were unable to pay were vaccinated free of charge by Dr. Deering G. Smith.

Through family physicians and different clinics 32 children had tonsillectomics performed, and many who were found with defective teeth had repair work or extractions done.

Owing to a scarlet fever epidemic all routine school work was suspended in October. I gave all my time checking on scallet fever and therefor the remaining children did not get their regular examination at the beginning of the school year. Inspection twice a week of all children was established on October 17 and the Good Cheer Nurses made all the home calls on absentees until November 20th. After this date,

room inspection was made once a week, and I made the home calls on all absentees in my schools.

Free milk was given daily to 300 needy children. This accomplished thru the state board of education with the assistance of the federal government.

During the year 117 pupils were excluded from school because of communicable diseases and 472 home calls were made. The conditions found which caused the exclusions were as follows:

Impetigo	21
Scabies	24
Peduculosis	2
Chicken Pox	21
Measles	1
Whooping Cough	3
Erysipelas	1
Scarlet Fever	22
Suspected Scarlet Fever	10
Peeling	12

As contagious disease nurse from January until the last of October I made the following visits on patients having various diseases:

Scarlet Fever	385
Chicken Pox	57
Measles	38
Whooping Cough	
Diphtheria	5
Typhoid Fever	
Mumps	
Undetermined	
Nose and throat cultures	10

Respectfully submitted.

CLARA L. MORIN, R. N.

Nashua Hospital Association

Report of the Treasurer

OPERATING AND INVESTMENT ACCOUNTS

For the Year Ending December 31, 1933

To the Members of the Nashua Hospitar Association:

Nashua Hospital Association

Report of Executive Committee

I think the Hospital Association, the Board of Trustees and the citizens of Nashua are to be congratulated, because of the fact that the Memorial Hospital during the past year, in spite of the depression and difficulties encountered as the result of such has been able to operate, pay its bills and slightly reduce its indebtedness.

The amount of charity rendered during the year has been far greater than that forthe previous year. Expressed in terms of dollars and cents, 13,035.64 for 1933, as against \$8,645.40 in 1932. In terms of individuals in 1933—361, in 1932—267.

In addition to the usual repairs and replacements we were obliged during the year, to install a new X-ray outfit, which together with the accessories cost somewhat over \$3000. Our old X-ray apparatus had been in operation since 1916 and was worn out. A new dish washing machine was purchased at an expense of \$495. Ultra violet health glass has been installed in all the windows facing upon Prospect Street, Gregg & Son volunteering the labor.

I wish to call your attention to the large amount of work done by the Women's Auxiliary during the past year. Averaging about eighteen workers, they have met every Tuesday and taken care of the large amount of sewing and mending that necessarily is required in an institution such as this. A great amount of interest has been shown in this work and the and the voluntary attendance has been wonderful. Furthermore, they contributed a large fund to the hospital, from which which we receive as income \$172.50 yearly to be used for charity. They recently donated a motor costing \$11.25, to be used in the hospital mending room. Groups of ladies from churches and other organizations have done sewing in their various meeting places or homes. The Congregational Church in Amherst has been active in sending us subscriptions to magazines, and is now planning to do some of our mending and sewing. I wish to make mention of the fact that Mrs. Fred Trow donated to us a new wheel chair. Donations

were received from Mrs. Shea, and some of the doctors for the nurses' Christmas.

The hospital staff is the same as a year ago, with one exception. Owing to the resignation of our previous technician, Miss Ann Lichter was secured in her place. I think most excellent eare has been taken of our patients during the past year. Complaints have been few and far between. Co-operation among the various departments has been excellent. On behalf of the Execuitve Committee and also personally, I wish to thank the superintendent, the supervisors and all other employees of the hospital for their efforts during the past year. They have at all times rendered service willingly and cheerfully, and have done all within their power to keep the hospital machinery running smoothly.

Respectfully submitted,

F. E. KITTREDGE, Chairman.

MARY A. SWEENEY.

January 15, 1934.

To the Officers and Members of the Nashua Hospital Association, Nashua, N. H.

Gentlemen:

In accordance with the request of your Treasurer, Mr. Charles E. Johnson, I have audited the books and accounts of your Association for the year ending December 31, 1933. The Operating Accounts are kept at the Hospital and I have verified the balance in bank, Accounts Receivable and Accounts Payable. I have found the cash receipts properly accounted for and satisfactory vouchers and canceled checks for all expenditures.

Respectfully submitted

CLARENCE H. WRIGHT, Certified Public Accountant.

XI Miscellaneous

I.—ENROLLMENT

Pupil enrollment evidences that there is an increased demand for education in Nashua. An industrial depression affects conversely the schools in so far as registration is concerned. Due to new laws of employment, lack of employment, and the demand for more highly educated workers, a larger percentage of boys and girls are remaining in school beyond the compulsory school grade and age.

It is particularly true that in the last few years there has been an unusual demand for post graduate work in our high school. Many young men and women find themselves under present conditios uable to finance a college course. It follows naturally that they are anxious to utilize their leisuretime in perfecting themselves in certain subjects and in pur-

suing new subjects which were previously denied to them by the limitations of their course. The limited facilities of the senior high school denies them this privilege which under other conditions would be freely granted. Most municipalities realize this demand and some communities are going as far as to establish junior colleges. It is hoped that this problem may be solved in the near future by greater housing facilities.

The following table shows the enrollment in the public schools over a period of ten years:

_	
1924	 4,207
1925	 4,263
1926	 4,315
1927	 4,357
1928	 4,334
1929	 4,507
1930	 4,472
1931	 4,494
1932	 4,696
1933	 4.818

Public school attendance for 1933 was 4,818 in comparison to 4,696 for 1932. The enrollment in the Senior High School was 1,482 or an increase of 15. The Junior High School has 784 pupils, an increase of 88. The grades and kindergartens registered 2,552, which is an increased registration of 19 pupils from the 1932 figures. These statistics show a different picture than in previous years. Forr the past five yeas there has been a tendency for the registration in the High School to increase materially, while the registration of the Junior High School and grales has remained practically the same. This year the pronounced increase takes place in the Junior High School. This increase can be attributed to the unusual transfer from the parochial schools to our Junior High School and to someextent, possibly to increased business activity in our city.

II. SCHOOL BUILDINGS

		Jate of	
	Co	nstruction	Value
High School	Spring St.	1919	\$425,000.00
Junior High School	Tempple St.	1903	100,000.00
Quincy St. School	Quincy St.	1916	65,000.00
Mount Pleasant School	Manchester St	1925	210,000.00
Arlington St. School	Arlington St.	1889	40,000.00
Belvidere School	Bridge St.	1897	22,000.00
Palm St. School	Palm St.	1907	17,000.00

Crowley School	Lake St.	1924	220,000.00

Lake St. School	Lake St.	1898	12,000.00
Country Club School	Lowell Rd.	1863	700.00
Kinsley St. Kindergart	ten, Kinsley St.		
	Date of Purchas	e 1918	2,500.00

The Committee on Houses working with the Mayor, (ity Engineer and City Solicitor, has prepared detailed plans and specifications for a proposed new senior high school building costing \$500,000.00. This project has been approved by the New Hampshire Committee and is now in Washington avaiting the decision of the P. W. A. Officials.

Nashua must soon face the question of providing adequate housing for the junior high school. In a school building built for a maximum of 450 pupils, antiquated and not of fire-proof construction, with no school grounds, it is impossible to give an adequate education to 784 boys and girls to say nothing of some assurance of physical safet.

* The following suburban schools are not at present in use:

Gilboa School (No. 3) Old Dunstable Road	800.00
Silver Spring (No. 5) Dunstable Road	1,000.00
Coburn Avenue (No .7) Coburn Avenue	800.00

III. EDUCATIONAL PROGRAM

(a) Organization

The Nashua Public Schools are organized on the 6-2-4 basis, with grades one to six inclusive in the elementary school buildings, grades seven and eight in the Junior High School, and grades nine to twelve inclusive in the Senior High School. Such an organization best fits the school building situation in Nashua. Organization has no direct effect upon costs, providing the work is the same and duplication is avoided. It is merely a device by which the schools can function and be administered effectively. As time goes on and new buildings are erected it may prove advisable to change this organization.

The grade and pupil enrollment in each building as of December 31, 1933, are as follows:

School	Grade	Enrollment
Quincy St.	1-6	414
Mt. Plcasant	1-6	381
Arlington St.	1-6	258
Crowley School	1-6	414
Belvidere	1-4	155
Palm St.	1-5	181
Crowley School	1-6	342
Mulberry St.	1-4	135
Shattuck St.	1-4	115
Amherst St.	1-4	131
Lake St.	1-4	81
Country Club	1-4	28
Kindergartens:		
Quincy St		30
Crown Hill		
Mount Pleasant		
Crowley		
Kinsley St		
Belvidere		
O'Donnell at Mount Pl	easant	31
Ash St. at Kinsley		31

All suburban schools have been closed with the exception of the Country Club School. This change has resulted in better educational opportunities for the children of the rural districts. Transportation always offers its problems but with state inspection and compulsory insurance much progress has been made. It is expected that legislative enactment will provide still more stringent standards working for the welfare and convenience of the pupils.

(b) CURRICULUM:

Too many people attribute the increased cost of education in recent years to fads and frills rather than to the natural causes. "Fads and frills" is a catch expression easily bandied from mouth to mouth. "What is a fad" or a frill"? The answer, undoubtedly, varies with the times and background of the speaker. In 1633 reading and writing were fads and frills. One could carry on the simple life of the early colonies very well without them. There were few books and no newspapers, and one's mark served for the signing of legal documents. In 1733 arithmetic was a fad. It was considered a most difficult subject, one which few

pupils could hope to study successfully and few teachers teach.

In 1833 geography and history were fads. In 1932, what is a fad? While it is difficult for the average critic to give a definite answer to this question, he usually has in mind anything which was not taught in the school which he attended; in other words, to kim all the changes of modern education are fads and frills.

Which of these fads would our critics eliminate? The whole field of health is under fire. The exigencies of city life make this one of the most essential functions of the school. It will profit little to fill our children's heads with facts until they become walking encyclopedias, if through the lack of those knowledges, habits, and attitudes essential to the maintenance of physical fitness they shall become burdens to themselves and liabilities to society.

Perhaps Art and Music are fads. Yet never were the problems of a wise use of leisure time so acute as at present, and these problems are destined to increase in magnitude with the inevitable increase in leisure. The creation of leisure without a corresponding provision for the resourceful use of that leisure is filled with dynamite. A love for good literature, music, and art is our best defense against the misuse of this increasing leisure.

Home Economics and Industrial Arts for a large proportion of our boys and girls represent the most valuable activity and materials of learning that the schools have yet devised. If we believe, as the traditional school does, that it is important through our college preparatory courses to keep open the road to the professions for the comparatively small number who can profit by such training, then surely any democratic theory of education makes it equally imperative that the great mass of students who are destined to occupations involving the use of the hands should have equal opportunity for preparation for their vocations.

The school of today with their "fads and frills" are the most important stabilizing influence we have in the community. Every thoughtful citizen has been amazed during this period of depression at the almost negligible amount of lawlessness and disorder. While this is due to many causes, much of the credit for the high morals of our people in this time of economic distress belongs to those very "fads and frills" which have enabled the school to function in a truly educational fashion in the lives of its pupils. Upon these so-called "fads" much more than upon traditional sub-

jects, important as they are, this country must depend for the attitude of its citizens toward their community life and their responsibilities.

(c) FUNDAMENTAL SUBJECTS:

The chief emphasis during the year has been placed on reading and a better knowledge and use of the English language. Reading is the most important and the most troublesome subject in the school curriculum. It is important because it is a tool,—the mastery of which is essential to the learning of nearly every other subject; most troublesome since pupils fail in reading far more frequently than in any other elementary skill. To read, understand, and use English correctly is particularly difficult for those children coming from homes where another language is spoken.

To help to eliminate this difficulty a special teacher was employed for part of the year, distributing her time in the various elementary schools, to do diagnostic and remedial work in reading. The efficacy of this work commended itself to the parents and it is hoped that with the return of better conditions it may be renewed. To unify and improve the reading in the primary grades Miss Alice Trow has been used. Miss Trow is co-author of the Beacon System of Reading and has rendered inestimable aid to the teachers. Her work has consisted of visitation, observation, constructive criticism, conferences with the teachers, and demonstration teaching. I have no hesitancy in stating that the work in reading in our city is far superior to those cities I have visited.

Reading problems naturally occur at the Junior High School due largely to the influx of pupils from other schools. Even though pupils should have mastered the mechanics of reading before reaching the Junior High School, many junior high school students fail because of their inability to read understandingly. Any person's thinking is limited by his vocabulary, since we think in terms of words and ideas. A special teacher has been employed at Junior High School to do remedial work in reading thus in many instances eliminating the demotion of overgrown boys and girls lacking the mechanical ability to read. Reference to work in the Senior High School is made later.

IV. SENIOR HIGH SCHOOL

The Senior High School was built in 1919. This building is well constructed and the exterior is of good design.

Its efficiency has been rated according to the Strayer-Englehardt score for high school buildings. The score arrived at was the combined judgment of three individuals upon a complete inspection of the building. On a scale of 1,000 points, this building scored 611 points. This is not as bad a score as it seems, as a school rated at 750 is considered a very good building. The major points lacking in this building are the following:

- (1) THE SITE IS INADEQUATE. The standard area for a high school site is twelve acres. There should be sufficient space for athletics and playground as well as opportunity for future extension of the building. While centrally located with respect to the homes of the pupils, additional land may become necessary to increase properly the capacity of this school. An athletic field should be provided not too far away.
- (2) SPECIAL ROOMS AND LABORATORIES WERE POORLY PLANNED. All science rooms, such as physics, chemistry, and biology were badly located. No proper attention was paid to the essential spaces for equipment of future development. Provision for ppractical arts for girls was well supplied, but the boys were omitted in the program. Rooms for drawing and art were partially supplied, but no special provision was made for music.
- (3) THE AUDITORIUM WAS NOT WELL PLANNED FOR SCHOOL PURPOSES. This assembly hall is not of proper proportion for a school auditorium. It is not equipped well for school dramatics, nor for visual education. The sight lines from gallery seats to the stage were ignored so that many of the seats are very undesirable.
- (4) THE CAFETERIA AND LUNCH SPACES ARE NOT IN KEEPING WITH MODERN PRACTICE. The space now called a gymnasium might better be devoted to the lunchroom needs.
- (5 THERE IS NO REAL GYMNASIUM OR HEALTH DEPARTMENT. Health is the first objective of modern education. It is evident that this was not believed at the time the high school was planned. One of the greatest needs of this high school is a good gymnasium and health program for both boys and girls.
- (6) THE GENERAL PLAN OF THE BUILDING IS NOT ELASTIC. This means that it does not lend itself readily to alterations nor to extensions to allow for the natural or expected increase of enrollment.

GROWTH OF THE SENIOR HIGH SCHOOL

the growth of enrollment in the high schools of the country has been the most remarkable phenomenon in public school nistory. This began in 1890, and there seems to be no end to the increasing demand for the offerings of the modern high school. There seems to be no evident relationship between the growth of population in the town, or the growth of enrollment in the grades, with the increase in high school attendance. Also it seems that neither prosperity nor depression has any effect upon this rapid growth. If parents are prosperous they send the children to high school. Also when times are hard and jobs are few the boys and girls who might go to work come back to school. So far as we can predict at this time, we must expect a continued growth in high school enrollment. We may not find the future demands quite so great, yet we have no proof that it will slacken to any large extent.

The following table will show the total enrollment of the Nashua High School for the past twelve years:

GROWTH OF HIGH SCHOOL ENROLLMENT

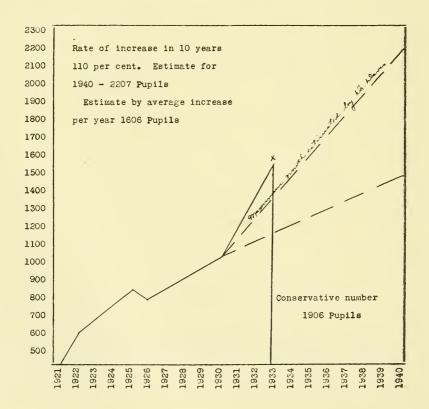

Year	Number
1921	 500
1922	 643
1923	 . 736
1924	 . 769

1931	 . 1230
1932	 . 1467
1933	 . 1482

From this table it will be seen that in only one year was there a slight loss in total enrollment. Very substantial gains yere made in all of the other years with a net increase of 551 pupils. This is a little more than doubling the number in ten

years, or at the rate of 110 per cent. The graph below, No. 4, will help to visualize this development.

The irregular line on this graph indicates the growth during the past ten years. By means of the dotted or broken lines an attempt is made to show the possible growth for the next ten years. One line shows what would happen if the same rate of increase should continue with an estimate of 2207 pupils. The other line indicates a very conservative estimate on the basis of continuing the same average number of additional pupils each year. This gives a very low estimate of 1606 pupils. In an attempt to prophesy a very reasonable number of pupils to be enrolled in the high school by 1940, it would be quite safe to take the difference between the two estimates for our present purpose. This means that by 1940 housing facilities will have to be found for at least 1906 high school pupils.

Notice should again be taken of inadequasy of this building for the number of students it now houses.

At present many pupils are without desks for their books and without a hook for their wraps. Two students occupy the same desk and others are compelled to leave their books on tables or window-sills. Under these conditions books, papers, hats, and coats can't help being lost. Students have been forced to follow programs which were unsuitable for them because other classes were completely full.

Pupils enter school at 8:10, 9:52, 10:39, 11:39, 12:26 and leave at 11:23, 12:23, 1:10, 1:58, 2:48, 3:36, and 4:24. It is impossible to have any restrictions about pupils leaving since the programs of many force a continual entering and leaving.

Toilets above the basement cannot be used during recess because no water is available, and the basement toilets are entirely inadequate for the large number there at that time. The corridors and stairs, which were designed for a much smaller school, are also so crowded at certain times that it is near dangerous.

The public sidewalk just south of the building is a positive menace. The noise is not only distracting but the kind of language which the pupils are sometimes forced to hear is surely not educational.

The school has demonstrated that it is large enough for a nurse. Certainly this school and the near-by Quincy Street School with a combined enrollment of about two thousand pupils ought to have a nurse a part of every day if not the whole morning. The present custom of dismissing pupils for real or fanciful illnesses could be properly controlled and a temporary illness could be aided.

V.—THE JUNIOR HIGH SCHOOL

The building now used to house the seventh and eighth grades is called a "Junior high school". The structure was erected in 1908. This building also was rated on the Strayer-Englehardt scale, and in the same manner the judgment of three individuals was taken upon an inspection of the entire plant. The result was a score of only 485 points on a scale of 1,000. The outstanding defects in this building include the following:

- (1) INADEQUATE SITE: Again this site was evidently chosen for its central location and not for its service for playground area or for future expansion.
- (2) NOT FIRE-PROOF CONSTRUCTION: This building is not wholly free from risks in case of fire or panic. The interior structure is of wood while modern buildings are of steel and concrete.
- (3) UNSATISFACTORY TOILET AND WARDROBE FACILITIES: There should be convenient toilet facilities on every floor, and both clothing and book storage can be taken care of to greater advantage in lockers well distributed through the corridors.
- (4) INEFFICIENT CLASSROOM STANDARDS: Both the size and shape of these rooms do not lend themselves to the most economic seating or uses. Modern classrooms for secondary schools are 23 feet wide. The length varies from 26 feet to 30 feet according to the number of pupils to be seated. Windows are upon one side of the room only. Movable furniture is rapidly taking the place of the traditional fixed desks.
- (5) SMALL PROVISION FOR MANUAL ARTS:—The manual arts equipment for boys is limited to a woodworking shop. One purpose of shop work in a junior high school is to serve as an exploratory experience in a variety of shop activities including the elements of a number of trades. This aims to give the boy an opportunity to discover his interests, aptitudes, and abilities, or the lack of them, as an aid in choosing more wisely his future training, if any, along mechanical lines.
- (6) INADEQUATE ASSEMBLY HALL: The assembly hall is on the third floor and seats about 450 pupils. Third floor assembly halls are not allowed by law in most states in the country. They are a menace to life. Moving

pictures can not be used in them. Only a part of the school can be assembled at one time, etc.

- (7) NO GYMNASIUM FOR PHYSICAL EDUCATION: The importance of physical training and health education cannot be stressed too strongly. A junior high school is not complete without such a program.
- (8) NO HEALTH SERVICE ROOMS: The rooms for the school doctor, dentist, and nurse are found in the very inconvenient location on the third floor of the high school. Evidently the placing of these rooms was an afterthought, or they would have been given a proper location in another building.

The Junior High School has a normal working capacity of about 650 pupils. The total homeroom seating is 798. Any junior or senior high school that is organized on a working basis of 80 per cent of its total seating capacity is considered efficiently administered. The present enrollment in the Junior High school, or seventh and eighth grades, is 784 pupils. This is sufficient evidence of need for additional building accommodations for these grades.

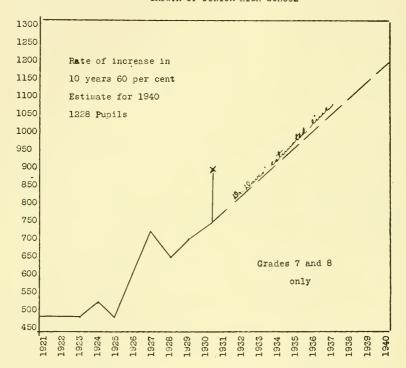

JUNIOR HIGH SCHOOL ENROLLMENT

Year	Nı	ımber
1921		479
1922		472
1923		464
1924		503
1925		495

1929		690
1930		768
1931		709
1932		715
1933		784

In this table it will be seen that the Junior High School, or grades seven and eight, have had a peculiar growth during the past ten years. Small losses have occurred during four years, but much larger gains appear in the remaining years. The net gain in this period was 305 pupils or an approximate rate of 63.7% increase. This fact must be taken

into consideration to an attempt to estimate the future enrollment. The graph below will illustrate the method.

GROWTH OF JUNIOR HIGH SCHOOL

This graph pictures the growth of grades seven and eight in the continuous irregular lines for the past ten years. The broken line carries forward for another ten years the same rate of increase. The result is an estimate of 1228 pupils. No one can be certain that this rate will continue, yet we do know that school enrollments do increase in a most remarkable way. Unless some unknown factors enter into the problem, we must expect to approximate this result.

			784

Increase over 1932: 92

Number graduated in June, 1933: 324

Number entering Freshman Class of Senior High School: 278.

I. ENROLLMENT

The increase in the enrollment of the school necessitated the addition of two teachers to the staff. Every room in the building is in use each period of the day as far as it is possible to schedule the rooms for occupancy in a departmental school. Any further increase in the enrollment of the school would seriously affect the efficiency of the instruction and be difficult to organize on the present basis of all pupils attending the junior high school at the same time, i. e., on a single session basis.

II. PROGRAM OF STUDIES

The setting up of our program of studies on the constants with electives type of organization continues to be a satisfactory arrangement and as so organized should continue. While "organization", as such, is not the paramount issue, whether we are concerned with the program of studies or the number of grades in the school; nevertheless, organization does affect instruction and should be considered as a factor of importance only as it enhances the instruction of the school. After two years of trial, the present program of studies seems to achieve the following beneficial results:

- A. Pupils of grade 7 adjust themselves to the new type of school more easily.
- B. Pupils of grade 7 receive a much better foundation in the social studies of geography, history, and vocational civies which are more and more becoming the vital parts of the program of studies.

C. Pupils of grade 7 enter the eighth grade better prepared to make an intelligent selection of elective subjects.

D. Pupils enter the eighth grade with a common background of subject matter.

- E. Pupils of grade 8 have a wider opportunity to try out and explore different fields of knowledge, as indicated by the following combinations of elective subjects which the pupils have selected this year:
 - 1. Practical Arts and Business Training
 - 2. Practical Arts and General Science
 - 3. Practical Arts and Latin or French Latin or French and General Science
 - 5. Latin or French and Business Training
- F. With such an opportunity for trying out various subjects, pupils from this school should enter the Senior High School with a better understanding of the program of the latter school, and, therefore, make a wiser choice of curricula and electives of that school.

Apart from the considerration of the organization of the program of studies, there is the ever present problem of the curriculum itself. No curriculum can be static and continuously effective. Educational literature today is filled with terms like "dynamic curricula," "a changing social order," "an emerging civilization," etc., which give evidence to the realization of the need for curriculum adjustment to life as it is and as it may be. Accordingly, the aim of the Junior High this year, as for as the teachers and supervision are concerned, has been the careful consideration of the subject matter taught in the various classrooms. The emphasis this year has been on "What to Teach," rather that on "How to Teach." Through teachers meetings and supervision we have attempted to keep before us this aim. We are not attempting to revise our course of study, nor are we easting about for new subjects to tack on to the program. Rather is each teacher considering the daily work of her class, atorganize her work with a definite, specific purpose which is worthy and can be justified from her own definition and philosophy of education.

The extra-curricula program has been expanded to the extent—(1) that we are operating on a seven period day on Wednesday and Thursday to permit additional time for club activities, (2) more attention is given to the assembly as an educative unit of the program, (3) more recognition is given to the social activities of the school as a worthy place to participate in leisure time activities, (4) more responsibility is placed on the pupils for the general management and

control of traffic in the building; conduct in the assembly and library; office work; etc.

III. The addition of a teacher to our staff this year to take care of those pupils who enter the Junior High School handicapped in one way or another has been of considerable help. In a large departmental school, we find many pupils who have specific difficulties. Possibly there is a language handicap. Mathematics or speling or reading may be the stumbling blocks which seriously interfere with the pupil doing successful work in the school. The job of the school is to prevent failures in so far as it is humanly possible to do so. These difficulties referred to above are individual difficulties or individual problems.

The regular classroom teacher with 40 pupils in her class cannot, oftentimes, give attention to these individual problems without neglecting the other 39 or 38 members of the class. Furthermore, oftentimes, the regular classroom teacher cannot locate the specific and individual difficulties which are causing failure. Therefore, there is a need and a definite one for what we call a "remedial teacher"—a teacher who, working with a small group, can attack the individual difficulties of pupils who are not succeeding in their work in school and, by special help and coaching, get these pupils back on their feet, so that they can progress with the other members of the class and not be held up in their normal progress through the school system by non-promotion. Furthermore, in the population of the junior high school, there are always boys and girls who need a special type of pro-These pupils should not be placed in special grades for there is much that the junior high school can offer them through such subjects as music, art, te practical arts, clubs, assemblies, etc. However, the regular program of studies is beyond the power of these few pupils to comprehend. A special program is therefore necessary. Briefly this is the justification for the so-called remedial teacher added to our staff this year. As anyone can readily understand from the outline of the work of this class, not every teacher that may possibly be out of employment these strenuous times would be capable by training and personal equippment to handle such a class. Unless the right type of teacher is secured for this special work, then the whole purpose of the work is defeated and it is futile to attempt the organization of scuh a special class. The selection of the teacher to handle the special work at the school has to date been most satisfactory.

IV. A study of the classification cards of all pupils who entered the Junior High School in September, 1933, from the sixth grade of the public schools reveals the following information relative to the scores made in reading, arithmetic computation, and spelling: (Scores are those obtained from the Stanford Achievement Test Advanced Form)

Subject	Range of	Median Score	Standard	Score Median
	Scores		for Grade	for Grade
Arithmetic	46-to-114	94	82	8.7
Spelling	39-to-106	84	82	7.2
Reading	34-to-105	78	82	6.4

Using the norms of the Stanford Achievement test, it is to be noted that the average score for the class was well above the standard score for grade 7 in arithmetic, approximately at the grade standard in spelling, and slightly less than one-half a year below grade standards in reading.

VI. DOMESTIC ARTS

The economic situation this year has been a challenge to the Home Economic teachers to readjust the content of their courses to meet the demands of the time and the needs of the community.

Clothing work has centered around the word "need", the girls planning and making what they felt they needed most and could afford. Class discussions and talks on possibilities of remodeling and making over for the pupils' own use or for the younger members of their family. In some classes, more than eighty per cent of the girls made over wool garments for themselves and in some instances pupils asked to make over their outgrown dresses for needy children. Pupils coming from the homes of mill operatives brought in mill remnants which they made up into attractive garments and many pupils have brought in Red Cross material given out to their families and have made this up in the class—room either for themselves or for members of their families.

After a few of the girls had successfully darned tears in their school dresses, the idea spread, and girls voluntarily brought in not only their own elothing to mend, but often dresses belonging to other members of the family. Over one hundred pairs of partly worn stockings have been collected, darned, and given out where needed.

When school opened in September, the girls in the clothing classes devoted six weeks to making up garments from

Red Cross material for school children between the ages of six and twelve.

One hundred and fifty garments have been turned over to the Red Cross for distribution.

The adapting of the course to meet economic conditions has developed in the girls a consciousness of the needs of others as well as themselves, and has caused them to throw aside any false pride they may have had in regard to the wearing of mended or made-over clothing.

The Foods and Nutrition classes, learning that many school children were suffering from malnutrition, decided to put both their skills and theories to practical use and announced the first of January that they were prepared to serve a hot dinner to as many school children as investigation showed need of it. On the first day, eighteen children received dinner. This number grew until by the end of three weeks one hundred and twenty children were being cared for. Through the generosity of interested citizens, The Board of Education, The Nashua Teachers' Club, Nashua Baking Company, W. T. Boyd & Son, Walter T. Ashley, and several wholesale and retail grocers, the foods classes were able to continue this project up to the first of May.

In planning these meals, the classes adhered very strictly to all points of nutritional balance as well as to the spending of their money in the most economical way, in order that not one cent would be wasted. Included in each meal was meat or fish, potato, a vegetable, bread, a simple dessert and a glass of milk. The average cost of these meals was six cents per child. School nurses reported improved physical conditions, and teachers noted marked improvements in attitude, interest and general scholarship.

In anticipation of another hard winter and many undernourished children to feed, the Foods Classes planned a canning programme. Produce was solicited from people having a surplus in their gardens and over six hundred jars of fruit, vegetables, and preserves are now ready to add variety and nourishment to the noon-day meal given to these children.

In all classes a great deal of emphasis has been placed upon individual health, personal hygiene, health of the home and in the community. The work done in the various classes has given the pupils a sense of importance to the community and a feeling that they can make a contribution to their family, school and community.

VII. MANUAL ARTS

This past school year from January to June, the work in the Flather Building on Spring Street was completed. The building now houses the Semor High School Mechanical Drawing classes, the Freshman class in cabinet-making and the Sopnomore class in pattern-making also the Junior class in house framing. There are also four divisions of the seventh grade from Junior High School which have work in this building. During the fifth and sixth periods we have nearly one hundred boys working in this building. With our present floor area (about 8,000 sq. ft.) this is the maximum number of boys that can be accommodated.

It is the first time that this department has had sufficient floor area for its cabinet-making classes. The shop is well lighted and the machines are not crowded, giving plenty of room to operate.

The boys did all the work of the remodeling the interior of the building. The various contractors' estimate on this work was about \$9,000.00. This included work in the basement of an estimated cost of \$700.00. The basement is not being used. Another \$700 would cover the cost of materials and outside labor on steam and plumbing. This department saved the city approximately \$7,600 on this job.

There is another phase of work that is done by this department that has never been given very serious thought, that is the work done for the various departments of the sehool system. This past year basket ball standards for the auditorium were designed and built. The standards were portable and no nails used in the walls or floor. Similar portable standards for gymnasiums cost \$750. Brackets for net \$90.

There are approximately 100 more students registered than last year or a grand total of approximately 702 students taking manual arts work this year.

VIII. FINE ARTS

(a) MUSIC:

The work in the grades is under the direction of Miss Marion A. King. It has consisted of theory, note reading and the learning of rote songs for the special holidays of the year. The elemetary schools have an orchestra which rehearses weekly. Groups of boys and girls have entertained before several community affairs. A class in music appreciation has been formed at the Mt. Pleasant School under the

direction of Miss Madeline Crouse. This class meets once a week to hear the Walter Damrosch Concerts.

At Junior High School the work is under the supervision of Mr. Elmer Wilson assisted by several regular teachers. The work consists of part singing with the attendant theory and music appreciation. Sight reading and production of good vocal tone are being developed. The retarded pupil is being helped and those of natural talent are given the opportunity to improve. The school also has a Glee Club of mixed voices and an Orchestra.

The music at Senior High School is a continuation of Junior High School work. Vocal music is stressed. There is an elective chorus of mixed voices. Tone production is an important part of the work. The students are trained in interpretation and the general practice of choral ensemble singing. The High School Glee Club, a group of singers, chosen because of special ability and love of vocal music, study selections of advanced technique and cultural quality.

The High School Orchestra this year is the best since its inception. The players are naturally talented and give much promise for the future.

(b) ART:

Art in the elementary schools is under the supervision of Bernard Moran. The work of the year is as follows:

"A. Revision of the individual grade programs, which now list a series of minimum essentials for required coverage in each grade. However, the individual teacher is at liberty to extend this listing and develop activities above and beyond these minima, as the classroom conditions permit.

B. Continuation of the teacher supervisory meetings initiated last year, 1932-33, subject to the following modification. After the intense grounding in fundamentals to which the teaching body was subject last year, it has seemed fitting to assume a sufficiency of background to warrant changing the emphasis from teacher preparation to activity preparation and development. Consequently, at each meeting a number of specific examples of activities is illustrated, developed, discussed, and presented to the teachers for their consideration and possible application, subject to the circumstances and conditions of the individual classroom.

The basic principle of the course remains the same, namely, to give significance to art by relating it as closely as possible to the actual life needs and situations of the child by

eontacting the work with the child's interests, activities, and experiences, in the school, home, and community life."

The enrollment in Art classes in the Senior High School has increased yearly, until at present there are five times as many taking art as were taking it in 1931. During the year several exhibits have been held in the Art Room where judges were asked to select the best projects. This has proved an incentive to the pupils as well as an interest to the parents. Some of the exhibits were—Textiles, Masks, Stages, Flower arrangement. In connection with its regular work this department has cooperated with the other departments. The work is under the direction of Miss Gertrude Jacques.

FINANCES

The School Department was granted for the year 1933 an appropriation of \$312,000 plus income, in comparison to an appropriation of \$329,400 plus income, making a total of \$332,052.96. This reduction in appropriation was effected without further reduction in the salaries of school employees. Subjoined will be found a table of expenditures and receipts for the year 1933. In spite of the fact that increased registration necessitated the employment of eight additional teachers and money was also expended for census and new school furniture, the School Department closed its books with a balance of \$718.68.
